Notes:

- (a) The movement from non-current assets to current assets was due to a Note maturing in Jun 2011.
- (b) Reduction in inventories and increase in trade receivables is mainly due to higher volume of deliveries of contracted sales during the last month of 2010.
- (c) The decrease in loans and borrowings is due to the settlement of trust receipts during the year.

8 Review of Performance

Revenue

Despite the economic recovery in Singapore during the year, the Group reported a year on year revenue decrease of 2.9%. The slight decrease in revenue was attributed to stiffer competition in the Semiconductor industry and lower demand in Projects segments. However, the reduction was offset by strong performance in the Trading and Others segment.

Trading and Others

The Trading and Others segment contributed 65% to the total revenue. Plastic trading represents a significant contribution to Trading and Others segment. Plastic trading has continued its good performance in FY 2010, growing by 43% when compared to FY 2009. The increase was mainly due to strong demand in volume, coupled with increased customer base and higher plastic resin prices. As a result, the revenue for the segment has increased to \$\$124.3 million in FY 2010 from \$\$94.7 million in FY 2009.

Semiconductors

The Semiconductors segment contributed 28% to the total revenue. This segmental revenue decreased from S\$71.8 million in FY 2009 to S\$53.1 million in FY 2010 due to stiffer competition in the industry. In addition, delays in the customers' production lines also contributed to the decrease in revenue.

Projects

Revenue from Projects decreased from \$\$30.2 million in FY 2009 to \$\$13.6 million in FY 2010. The significant decrease in revenue for Projects was attributed to the completion of a sand project in FY 2009.

Group's profit before tax

For FY 2010, the Group posted a net profit before tax ("NPBT") of about S\$0.3 million, a 53% decrease to a NPBT of about S\$0.7 million for FY 2009.

Trading and Others segment registered a net profit of S\$1.4 million in FY 2010 as compared to a net profit of S\$36,000 in FY 2009. The improvement was attributed to higher revenue and lower impairment allowances on trade receivables and inventory.

The Projects segment contributed a net profit before tax of S\$0.7 million due to fewer projects secured in 2010.

The net profit before tax from both Trading and Others and Projects segments was offset by net loss from Semiconductors segment of \$\$1.9 million.

Total expenses as a percentage of revenue declined from 10.9% in FY 2009 to 6.3% in FY 2010. The reduction in total expenses was due to higher impairment allowances for trade receivables of S\$5.4 million and write-down of inventory of S\$2.9 million in FY 2009 as compared to net writeback of S\$\$0.4 million in FY 2010. However, this was offset by higher foreign exchange losses of S\$1.5 million in FY 2010 as compared to S\$0.7 million in FY 2009.

The Group's share of profit in its associates was about S\$1.0 million as compared to S\$0.3 million in FY2009 due to better performance.

9 Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.
