- (2) Foreign exchange loss arose mainly from the revaluation of certain receivables and cash and bank balances which are denominated in USD.
- (3) Nil balance is due to the redemption of debt investments at FVOCI in FY2018. Impairment loss on debt investments at FVOCI for the first half of FY2018 were recognised by reclassifying the losses accumulated in the fair value reserve in equity to profit or loss in view of a prolonged decline in its fair value below its cost.

- (c) The increase in loans and borrowings was mainly due to higher utilisation of trade financing facilities from the banks during the period.
- (d) The decrease in trade and other payables was mainly attributable to the decrease in purchases for the plastic resin trading business.

There were no changes in the Company's share capital since 31 December 2018.

No share options had been granted under the INTRACO Employee Share Option Scheme which was approved at an Extraordinary General Meeting held on 29 April 2013. In this respect, the Company does not have outstanding share options as at 30 June 2019.

2 Whether the figures have been audited, or reviewed and in accordance with which auditing standard or practice.

The figures have not been audited or reviewed by the Company's auditors.

3 Where the figures have been audited or reviewed, the auditors' report (including any qualifications or emphasis of a matter).

Not applicable.

4 Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.

Other than the adoption of the new and revised Singapore Financial Reporting Standards (SFRS) which took effect from the current financial year, there were no changes in accounting policies and methods of computation adopted in the financial statements for the current reporting period as compared to the most recent audited annual financial statements as at 31 December 2018.

5 If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

On 1 January 2019, the Group adopted the new/revised SFRS(I)s that are effective for annual periods beginning on or after 1 January 2019. Changes to the Group's accounting policies have been made as required, in accordance with the transitional provisions in the respective SFRS(I)s, SFRS(I) Interpretations and amendments to SFRS(I)s.

Other than the adoption of SFRS(I) 16, as disclosed below. The adoption of these new/revised SFRS(I)s, SFRS(I) Interpretations and amendments to SFRS(I)s did not result in substantial changes to the Group's and Company's accounting policies and had no material effect on the amounts reported for the current or prior financial years.

The Group has adopted the new Singapore Financial Reporting Standards (International) ("SFRS(I)") 16 Leases, which took effect on 1 January 2019, using the modified retrospective approach. SFRS(I) 16 introduces a single, on-balance sheet lease accounting model. It requires a lessee to recognise a "ROU" asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments.

In compliance with SFRS(I) 16, the Group and the Company has applied the practical expedient to recognise the amount of ROU assets equal to the lease liabilities as at 1 January 2019. Subsequent to initial recognition, the Group and the Company depreciate the ROU assets over the lease term, and recognise interest expenses on the lease liabilities.

The ROU assets as at 30 June 2019 were mainly related to leases of the property, plant and equipment occupied by the Group. Accordingly, there was a corresponding increase in lease liabilities of approximately S\$0.4 million as at 30 June 2019.

8 Review of Performance

Revenue and cost of sales

The Group's revenue in the first half of FY2019 ("H1 2019") decreased by 24.0% from S\$76.2 million in H1 2018 to S\$57.9 million during the financial period under review. The decrease in revenue was attributable to the Group's Trading and Other Segment which declined by 24.2% to S\$53.7 million in H1 2019. The segment's trading business saw its revenue contribution decline mainly due to challenging market conditions for plastic resin business during the period.

The Fire Protection Segment saw its revenue contribution declined by 20.4% to S\$4.2 million in H1 2019, mainly due to fewer projects completed during the financial period under review.

Revenue contribution from the Trading and Other segment made up 92.7% of the Group's revenue in H1 2019, while the Fire Protection Segment made up the remaining 7.3%.

Cost of sales decreased by S\$16.6 million or 23.7% to S\$53.6 million, largely in tandem with the decrease in revenue.

Gross profit

Gross profit decreased by 27.8% to S\$4.3 million in H1 2019, mainly due to lower sales from both the Trading and Other segment and the Fire Protection segment.

Other income

Other income mainly comprises advance payments from a customer forfeited of S\$0.1 million.

Other expenses

Other expenses decreased by 93.1% from S\$145,000 in H1 2018 to S\$10,000, as there was no impairment loss on debt investments at FVOCI in H1 2019 (H1 2018: S\$118,000) due to the full redemption of the debt investments in FY2018.

Finance income

Finance income relates to interest income derived from fixed deposits.

Finance costs

Finance costs increased by S\$39,000 or 20.4% to S\$230,000 mainly due to the higher utilisation of trade financing facilities and increase in interest rates.

Share of net profit of equity-accounted investees, net of tax

The Group's share of results from associate and joint venture slightly decreased by 3.3% to S\$0.6 million in H1 2019, due mainly to share of loss from its joint venture which was impacted by the weak construction industry and intense competition.

Group profit before tax

The Group registered a profit before tax of S\$0.1 million in H1 2019 compared to S\$1.6 million in H1 2018. The decrease was mainly due to lower gross profit from both the Trading and Other segment and the Fire Protection segment.

Tax expense

The decrease in tax expenses was due to lower taxable income for the Group.

Review of consolidated statement of cash flow

The cash flow used in operating activities of S\$2.0 million was mainly due to decrease in trade and other payables of S\$2.4 million and increase in contract assets of S\$1.0 million, which were partially offset by increase in trade and other receivables of S\$1.4 million.

The cash flow from investing activities amounted to S\$0.5 million was mainly due to the dividends received from an associate of S\$0.4 million during the period.

The cash flow from financing activities of S\$3.2 million was mainly due to proceeds from loans and borrowings drawn down during the period of S\$12.7 million, which was partially offset by repayment of loans and borrowings of S\$8.7 million and dividends paid to shareholder of a subsidiary of S\$0.3 million.

9 **Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.**
Not applicable.

10 **A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

The global economic uncertainties continue to affect trading activities world-wide. Companies especially those in the export sectors are vulnerable in the on-going trade war. The contraction in trading activities is reflected in the overall business performance of companies. Despite the challenging market conditions in which our businesses operate, the Group continues its endeavour in respect of its regional expansion initiatives, particularly for its fire protection business and trading business.

As an investment holding company with diversified businesses, we are constantly reviewing and managing our investment portfolio to bring long-term and sustainable value to our shareholders. We continue to actively explore new opportunities for growth and expansion.
