(Loss)/Profit Before Tax	(649)	1,361
(Loss)/Profit After Tax	(591)	1,165

SINGAPORE, 10 August 2016 – SGX Mainboard-listed investment management company **Intraco Limited** (“INTRACO”, or together with its subsidiaries the “**Group**”), today announced revenue of S\$43.3 million for the half year ended 30 June 2016 (“**1H2016**”), from S\$58.6 million a year ago. The drop in revenue is from plastics trading.

Gross profit decreased by 14.5% to S\$4.7 million in 1H2016 in line with lower revenue. This coupled with contingent acquisition cost and forex translation loss resulted in a net loss of S\$0.6 million.

Mr Will Hoon, Chief Executive Officer of Intraco said: “*With Intraco now an investment management company, we are actively seeking new acquisitions in businesses to generate new streams of income and create value for shareholders.*”

Financial Position

The Group's financial position remains strong. As at 30 June 2016, the Group had net assets of S\$64.9 million, translating into a net asset value per share of 63 Singapore cents, from 64 Singapore cents as at 31 December 2015. Cash and marketable securities decreased to S\$40.3 million as at 30 June 2016, from S\$48.5 million as at 31 December 2015.

Outlook

Crude oil prices and commodities market have been less volatile while outlook for key global economies remains challenging. The plastic resin industry has been impacted by declining revenues as a result of reduced tonnage allocation from suppliers. Against this backdrop, the Group expects its operating environment, particularly its plastic trading and construction businesses to be challenging in the next half year.

Intraco's Fire Protection Division is expected to continue to contribute to the Group.

Looking ahead, Intraco will continue to explore new business opportunities for growth.
