ABOUT INTRACO

Intraco Limited (“**Intraco**”) was incorporated on 5 November 1968 and has been listed on the Mainboard of the Singapore Exchange since 18 December 1972.

Intraco and its subsidiaries (the “**Group**”) is involved in the trading and distribution of plastic resin, provision of trade finance and supply chain solutions, provision of mobile radio infrastructure management services and also corporate finance advisory on digital securities (e.g. corporate commercial papers in the form of digital tokens) and assets securitisation through digital tokens.

Intraco owns a 80.0% equity interest in a Singapore-incorporated entity that is licensed by the Monetary Authority of Singapore as a major payment institution under the Payment Services Act 2019 of Singapore, to conduct regulated payment services including account issuance, domestic and cross-border money transfers and money changing services.

Headquartered in Singapore, Intraco also operates in Vietnam and Indonesia.

CHAIRMAN'S STATEMENT

Dear Fellow Shareholders

2025 was a challenging year, marked by escalating geopolitical risks, technology disruptions and trade tensions. While our legacy plastic resins trading business struggled, we continued to build and strengthen our trade finance and supply chain solutions services in Singapore and the region as well as our digital assets and tokenisation advisory services.

For the financial year ended 31 December 2025, the Group recorded revenue of approximately S\$154.6 million, a decline of approximately 15.5% year-on-year. The reduction was primarily attributable to weaker trading activity in plastic resins across key markets Vietnam, Indonesia, and Malaysia. Notwithstanding the lower revenue, the Group achieved a net profit after tax of S\$1.6 million in FY2025. This represents an increase of almost 78.0% as compared with the net profit after tax of S\$0.9m in FY2024 (after excluding the one-off reversal of allowance for impairment loss on trade receivables relating to the defunct coffee trading business in FY2024). This increase in profitability was primarily a result of positive contribution of S\$1.9 million from trade finance and supply chain solutions services during the year. In 2025, this business segment performed commendably, assisting and advising its customers in the energy sector to arrange trade and supply chain finance amounting to approximately US\$234.0 million (S\$100.0 million in 2024). We intend to build on this positive momentum and are finalising plans to launch a private trade fund with a licensed fund manager to provide a structured vehicle for institutional capital deployment in trade and supply chain financing.

Our digital assets and tokenisation advisory business also made further inroads in the market assisting its accredited corporate clients to raise working capital of approximately S\$1.2 billion (S\$900.0 million in 2024) through the issuance of short term digital commercial papers listed on two regulated private digital exchanges in Singapore.

Strategic Developments

During the year, we made good progress in our strategic transformative roadmap to transition towards an asset-light business model that is scalable and aligns with the technological trends today.

In February 2025, the Company completed the acquisition of the remaining 49% equity interests in its 51%-owned subsidiary, Taurus Point Capital Pte. Ltd. ("TPC"). TPC's principal business is in the provision of corporate advisory services related to digital assets and tokenisation.

In April 2025, shortly after the announcement of the Group's audited profitable results for the financial year ended 31 December 2024, Intraco was removed from the Watch-List of the Singapore Exchange Securities Trading Limited.

In May 2025, the Company also completed the divestment of its wholly owned subsidiary, K.A. Holdings Pte. Ltd. and its subsidiaries, for a consideration of S\$6.9 million and exited from the passive fire protection business. The Company recognised a gain of S\$95,000 from this divestment. In December 2025, the Company also completed the disposal of its 2 remaining industrial property units in Tuas for an aggregate consideration of S\$1.3 million.

CHAIRMAN'S STATEMENT

In January 2026, Intraco completed the acquisition of an additional 60.1% of equity interest in iChange Pte. Ltd. (formerly known as SlideSG Pte. Ltd.) ("**iChange**"), a regulated major digital payments provider offering domestic and cross-border transfers, merchant acquisition, e-money issuance and money changing, from its founding shareholder. Following this acquisition, the Company owns a 80% equity interest in iChange.

In the coming year, our focus will be to grow our core businesses, strengthen our operational resilience, improve efficiency, maintain cost discipline and identify new and suitable growth opportunities.

Shareholders' Return

In May 2025, following the completion of the Group's passive fire protection business, the net sales proceeds received from this divestment were distributed to our shareholders via a capital reduction exercise with a cash distribution of S\$0.06 per Share.

Over the year, the Company has also undertaken active buy back of its shares in the open market as a way for Intraco to provide buy-side trading liquidity to its shareholders and narrow the discount between the market price and the Group's net asset value, which stood at 50.8 cents per share as at 31 December 2025.

The Board has proposed a final dividend of 0.75 cents per share to be approved at the upcoming Annual General Meeting, representing a 50% increase from the previous year's final dividend of 0.5 cents per share.

Appreciation

On behalf of the Board, I would like to express our sincere appreciation to our management team and employees for their dedication and commitment throughout the year. I would also like to thank our shareholders, bankers, business partners, and customers for your continued trust, support and confidence in our Group. With our healthy balance sheet and focus on shareholder return, we look forward to working closely with our different stakeholders to deliver value to our shareholders.

Sincerely

MAK LYE MUN

OPERATIONS AND FINANCIAL REVIEW

OPERATIONS REVIEW

During the year, Intraco Limited was primarily involved in the trading and distribution of plastics resin, the provision of trade finance and supply chain solutions, provision of corporate advisory services related to digital assets and investments as well as mobile radio infrastructure management services.

In February 2025, we completed the acquisition of the remaining 49% of equity interest in Taurus Point Capital Pte. Ltd. ("Taurus Point"), making it a wholly-owned subsidiary of the Company. During the year, Taurus Point assisted its accredited corporate clients in raising approximately S\$1.2 billion through short term digital commercial papers listed on regulated digital exchanges in Singapore to support their business growth and working capital requirements. Taurus Point will continue to pursue new corporate issuers and broaden its digital debt origination pipeline.

In May 2025, we completed the proposed disposal of 100% of the issued and paid-up capital of K.A. Group Holdings Pte. Ltd. ("KAGHPL"). Following the completion, the K.A. Group (comprising KAGHPL and its subsidiaries) ceased to be subsidiaries of the Company, and the Group exited the business of providing one-stop passive fire protection solutions, systems and installation services.

In September 2025, the Company announced the intention to proceed with a further investment in iChange Pte. Ltd. ("iChange") (formerly known as SlideSG Pte. Ltd.). The Company entered into a binding term sheet with iAPPS Pte. Ltd. ("iAPPS") to extend an exchangeable loan of S\$3.0 million to iAPPS. In the event that the exchangeable loan was not fully repaid, the loan would be exchanged into existing shares in iChange held by iAPPS, representing 60.1% of the issued and paid-up share capital of iChange, at any time up to 2 January 2026, being the maturity date of the exchangeable loan. In January 2026, the Company exercised the exchange option and iChange became a 80%-owned subsidiary of the Company.

In FY2025, the Company's wholly owned subsidiary Tradetok Pte. Ltd. ("Tradetok") successfully assisted its trade customers in the energy sector to arrange trade finance of approximately US\$234.0m. Building on this momentum, Tradetok is progressing plans to establish a private trade fund with a strategic partner and licensed fund manager to facilitate institutional capital deployment in trade and supply chain. The fund is expected to be launched in the coming months.

The Group's trading and distribution business continued to face a challenging operating environment, with lower demand for its plastic resins products and declining prices in certain of its key markets. The Group has taken proactive steps to manage its operational costs and enhance operational efficiency to remain competitive. The Company is also in discussion with the principal regarding the discontinuation of the distribution of the National Cellar 国窖 1573 series of Chinese 白酒 baijiu in Singapore.

In FY2025, the Group's mobile radio infrastructure management services secured contracts worth approximately S\$1.8 million for the North-East Line ("NEL") for the installation, upgrading, and integration of advanced telecommunications systems in support of the NELs ongoing modernisation and capacity expansion initiatives. These contracts are expected to end in Q4 FY2026.

The Group will continue to identify new opportunities while allocating its capital resources prudently. It will maintain cost discipline and adopt appropriate risk management practices with the aim of enhancing long-term value and returns for its shareholders.

Today, the Group employs a total of 43 employees.

FINANCIAL REVIEW

Income Statement

For the year under review, the Group's revenue decreased by 15.5% from S\$182.8 million in FY2024 to S\$154.6 million in FY2025 due mainly to lower revenue contributed from the Group's trading and distribution business.

On a segmental basis, revenue from the trading and distribution decreased by 16.5% from S\$178.9 million in FY2024 to S\$149.4 million in FY2025, mainly due to lower demand and lower selling price of plastic resins in FY2025. In contrast, revenue from the mobile radio infrastructure management and corporate advisory services increased by S\$1.1 million from S\$4.0 million in FY2024 to S\$5.1 million in FY2025 due to a new contract secured in FY2025.

Gross profit decreased by 17.3% from S\$4.8 million in FY2024 to S\$4.0 million in FY2025. This was due mainly to the lower revenue obtained from the Group's trading and distribution segment.

Other income grew by S\$1.4 million, from S\$0.9 million in FY2024 to S\$2.3 million in FY2025 mainly due to higher demand for the Group's trade finance and supply chain solutions amounting during the year.

OPERATIONS AND FINANCIAL REVIEW

Administrative expenses decreased by S\$0.1 million, from S\$5.8 million in FY2024 to S\$5.7 million in FY2025 mainly due to lower staff and related cost.

Other expenses in FY2025 were mainly attributable to a fair value loss of S\$0.1 million on financial assets at fair value through profit or loss.

Finance income increased by S\$0.7 million from S\$1.5 million in FY2024 to S\$2.2 million in FY2025 mainly due to higher interest income received from deployment of the cash balances during the year. Comparatively, finance cost increased by S\$0.8 million from S\$0.7 million in FY2024 to S\$1.5 million in FY2025 mainly due to the interest expenses of S\$0.7 million incurred on the issuance of the Company's short-term securities, which were used to fund the Group's working capital requirements.

As a result, the Group recorded a net profit before tax of S\$1.2 million in FY2025 as compared to a net profit before tax of S\$1.8 million in FY2024. The higher profit recorded in FY2024 was mainly due to the reversal of the allowance for impairment loss on a trade receivable of S\$1.1 million which was provided for in the prior financial year. Adjusting for these one-time impacts, the Group recorded a profit before tax of S\$1.2 million in FY2025 and S\$0.7 million in FY2024.

Financial Position

As at 31 December 2025, the Group's net assets amounted to S\$54.8 million, representing a net asset value per share of S\$0.51.

The decline in property, plant, and equipment from S\$3.0 million in FY2024 to S\$1.7 million in FY2025 was mainly due to depreciation expense amounting to S\$1.6 million, offset against additions of property, plant and equipment of S\$0.3 million.

The reduction in long-term investments from S\$1.6 million in FY2024 to S\$1.5 million in FY2025, mainly due to fair value loss of S\$0.1 million on financial assets measured at fair value through profit or loss. Short-term investments increased from S\$10.5 million in FY2024 to S\$14.8 million in FY2025 mainly due to additional placement in short-term debt securities of S\$6.3 million, offset against decrease of S\$2.0 million in investment in corporate bonds.

The non-current receivable of S\$2.0 million represent the deferred consideration from the sale of the K.A. Group.

Additionally, the increase in trade and other receivables from S\$32.5 million in FY2024 to S\$36.7 million in FY2025 was mainly due (i) increased in other receivables by S\$3.9 million (ii) an outstanding receivable from K.A. Group of S\$1.0 million (iii) an exchangeable loan of S\$3.0 million to iApps Pte Ltd, controlling shareholder of iChange Pte. Ltd. as announced on 19 September 2025, and (iv) offset against decrease in trade receivables of S\$5.3 million, reflecting lower volumes and revenue from the Group's trading and distribution business.

The non-current asset held for sale decreased from S\$1.3 million in FY2024 to nil in FY2025, following the sale of two industrial properties in Tuas.

Loans and borrowings increased from S\$27.7 million in FY2024 to S\$32.8 million in FY2025 was mainly due to increase of S\$9.0 million in amount payable to the Group's digital commercial paper investors to fund the Group's working capital requirements offset against decrease of S\$3.8 million of trust receipts.

The increase in trade and other payables from S\$25.5 million in FY2024 to S\$35.6 million in FY2025 was mainly due to increase in amount payable to an unrelated corporate partner amounting to S\$8.0 million and increase in amount due to shareholder of S\$5.9 million offset against a decrease in contract liabilities of S\$1.1 million and decrease in trade payables of S\$3.1 million in line with the decline in revenue in FY2025.

Cash Flow

Cash flow from operating activities totaled S\$7.3 million. This was mainly due to increase of trade and other payables of S\$10.3 million, offset against decrease in trade and other receivables of S\$3.5 million as explained under consolidated statement of financial position.

Cash flow from investing activities totaled S\$2.7 million, primarily due to the proceeds of S\$4.9 million from the completion of the disposal of the Group's passive fire protection business in May 2025 and interest received of S\$2.2 million, offset against the net purchase of short-term securities and bond funds of S\$4.2 million.

Cash flow used in financing activities amounted to S\$1.4 million, primarily due to decrease in restricted cash of S\$5.9 million and additional S\$9.0 million raised from the issuance of short term digital commercial papers, offset against payment of capital reduction of S\$6.5 million, repayment of trust receipts of S\$3.8 million and interest paid of S\$1.4 million.

SUSTAINABILITY REPORT

Protecting the environment is an integral part of our vision and a commitment that we convert into meaningful actions.

MESSAGE FROM THE EXECUTIVE CHAIRMAN AND DIRECTOR

At Intraco Limited, sustainability is not just a value we uphold — it is a belief that guides our journey. We embrace our responsibility to help shape a more sustainable future, even when our resources are modest. Though our footprint may be small, our ambition to create meaningful, lasting impact is bold and unwavering.

Over the past year, we have continued to evolve, reshaping our business model to become more scalable and aligned with the technological landscape of today. With the divestment of our passive fire protection business, we are now focused on regional trading, distribution and supply chain activities, alongside the provision of digital assets, corporate advisory and other financial services.

This transformation opens new pathways for advancing sustainability. Our current operations require significantly less electricity and fuel, contributing to reductions in our Scope 1 and Scope 2 emissions. Even so, we remain committed to closely monitoring and responsibly managing both our direct and indirect carbon emissions as we work toward our 2026 targets. Our journey is ongoing, but our determination to minimise our environmental impact is steadfast.

Our ambitions extend well beyond regulatory compliance. We are actively exploring opportunities to enhance energy efficiency, reduce waste, and embed sustainable practices across our operations. We recognise that sustainability is a shared responsibility, and we are committed to collaborating with our stakeholders to drive meaningful, collective progress.

I am inspired by the dedication of our team, who have embraced sustainability as a core value and a guiding principle. Together, we are demonstrating that even smaller organisations can contribute to positive change. While challenges remain, we are confident that our commitment to sustainability will not only benefit the environment but also strengthen our resilience and long term growth.

Looking ahead, we will continue to balance growth with responsibility, ensuring that we leave a positive legacy for future generations. Thank you to all our stakeholders for your continued support as we work towards a more sustainable future.

SUSTAINABILITY REPORT

GOVERNANCE

Governance Structure and Statement of the Board

The Board has the oversight and ultimate responsibility on the Group’s sustainability reporting. It assumes a major role in formulating the Group’s sustainability strategies, goals and targets, while overseeing sustainability performance and the policies that enable their achievement.

When shaping the Group’s strategic direction, the Board considers a wide range of climate-related risks and opportunities, and drives the integration of such considerations into its oversight of the Group’s strategy, major transactions, and risk management policies. It ensures that ESG considerations and stakeholder expectations are fully embedded in decision making. This includes regularly assessing whether proposed transactions align with the Group’s climate commitments, and questioning on the adequacy of controls and mitigation plans. The Board weighs short-term financial impacts versus long-term resilience, to guide balanced, forward-looking decisions that support sustainable performance. The Board also determines the Group’s material ESG topics and oversees their management and ongoing monitoring.

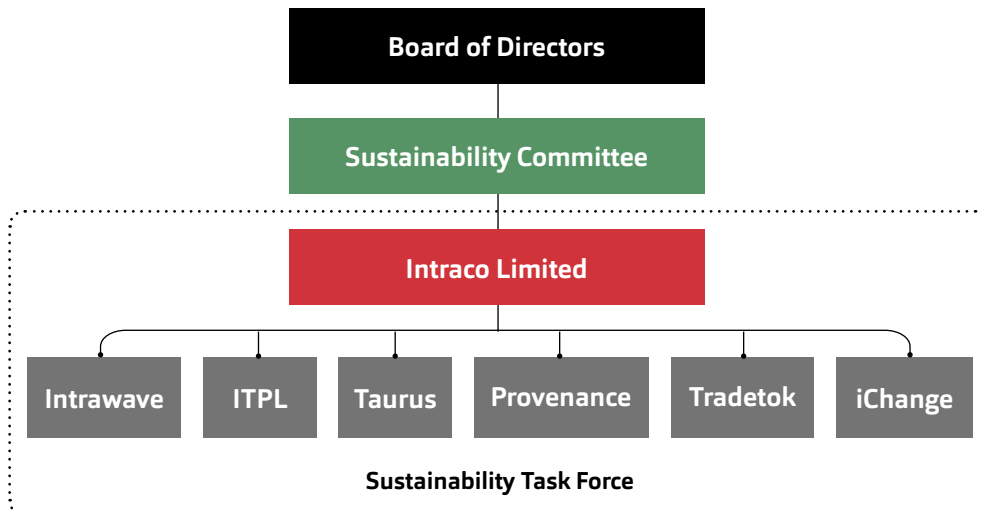

The Board oversees the establishment of climate-related targets by ensuring they are grounded in credible data, aligned with the Group’s strategic objectives, and supported by plan of execution. It regularly reviews progress against these targets, making queries where gaps or delays emerge. While climate-related performance indicators are not currently integrated into remuneration policies, the Group’s commitment to its climate-related goals are nonetheless diminished.

The Board oversees the sustainability efforts of the Group with the support of the Sustainability Committee (“SC”). The SC is formed by the heads of the Group’s principal business units and is co-chaired by the Group’s Vice President, Finance and Vice President, Human Resource. The SC meets once a year to review the Group’s climate challenges, and updates the Board through a structured reporting mechanism that combines regular briefings with event-driven escalation, enabling consistent oversight.

The SC stipulates the Group’s sustainability strategies and goals, collects data to periodically assess progress, and reviews the policies that support their achievement. It also makes recommendations on sustainability matters, including policies, practices, and targets. In carrying out these responsibilities, the SC identifies key business risks, implements relevant strategies, tracks material ESG factors, and reviews the Group’s sustainability reports.

The SC is supported by the Sustainability Task Force (“STF”) which consists of executives in different business units. The STF provides support to the SC through a set of structured controls and procedures, which are integrated into the operations of business units. These include periodic climate-related risks assessments, cross-functional reviews of regulatory and market developments. Dedicated working groups of each business unit coordinate inputs to ensure that climate insights inform the SC and the Board on strategic planning, capital allocation, and overall risk management.

Both the Directors and senior personnel in the SC have received sustainability training. The Board is kept regularly informed of emerging ESG developments, including energy policies, regulatory updates and evolving market best practices. ESG training is embedded in the induction and ongoing development of Directors and senior management.

SUSTAINABILITY REPORT

Regulatory Compliance

The laws and regulations that are applicable to the Group include the Code of Corporate Governance 2018, regulations by the Monetary Authority of Singapore, Listing Rules of the SGX-ST, the Accounting and Corporate Regulatory Authority (“ACRA”) and the Securities and Futures Act, amongst others.

Review of new regulations and updates to existing regulations are regularly conducted by our employees, our corporate secretarial firm and our auditors. Updates are disseminated to relevant staff and processes are in place to monitor the activities and associated performance on a regular basis.

Additionally, updates on relevant legal, accounting and regulatory developments are typically provided to the Board by emails, briefings or presentations. The Company Secretary also circulates articles, reports and press releases issued by the SGX-ST and the ACRA which are relevant to the Board.

STRATEGY

Our Six Core Focus Areas

Our ESG strategy is anchored in six core focuses as illustrated below. Together, these core focuses form a comprehensive framework that strengthens our resilience, enhances our competitiveness and ensures that we contribute meaningfully to a greater community.

Focus 1: Governance and Ethics

Strong governance and ethical conduct form the foundation of our ESG strategy. We are committed to maintaining accountable and responsible leadership that integrates sustainability considerations into strategic planning and decision making. We uphold strict ethical standards, including zero tolerance for corruption and bribery, and we prioritise data security and privacy to ensure stakeholder trust. Through clear policies, robust oversight and transparent reporting, we foster a culture of integrity that guides our actions.

Focus 2: Economic Performance

Sustainable economic performance is essential to our long-term success. We strive to create stable financial value by enhancing our business model, improving operational efficiency and managing risks proactively. We support local and regional economies through fair practices and partnerships with suppliers who share our values. By aligning financial discipline with sustainability principles, we aim to deliver consistent value to shareholders while contributing positively to the communities in which we operate.

Focus 3: Innovation and Improvement

Innovation is a driving force for our growth. We continuously explore new technologies, digital tools and process enhancements that help us remain competitive amid market shifts, technological changes and global challenges. We embrace digital transformation by reshaping our business model to include digital assets and related financial services. Our employees are encouraged to improve continuously and contribute ideas that advance our strategic goals. Through innovation, we position ourselves to anticipate future challenges and opportunities.

Focus 4: Environmental Responsibility

We recognise our responsibility to minimise our environmental footprint and contribute to global climate goals. Our environmental strategy focuses on reducing emissions, conserving resources and integrating sustainable practices across our operations and value chain. We actively monitor and manage our performance against targets, implementing energy-efficient measures and exploring low-carbon technologies. Waste reduction, optimal resource consumption and environmental compliance are central to our approach. As we continue to evolve, we remain committed to exploring new ways to reduce our impact and support a more sustainable planet.

SUSTAINABILITY REPORT

Focus 5: Product Responsibility

We uphold rigorous quality assurance standards and ensure quality throughout our supply chain. Our approach to product responsibility includes ethical sourcing, strong supplier oversight and clear communication about product features, risks and benefits. We also prioritise customer data protection and cybersecurity, recognising the importance of trust in an increasingly digital marketplace. By embedding sustainability considerations into our product and service offering, we will create long-term value to our stakeholders.

Focus 6: Human Capital

Our people are central to our success, and we are committed to fostering a workplace where they can thrive. We promote diversity, equity and inclusion, ensuring equal opportunities and a culture that values different perspectives. Employee well-being, health and safety are our top priorities, supported by workplace practices that promote harmony. We invest in continuous learning and development to equip our workforce with the skills needed for the future. Through open communication, recognition and engagement, we cultivate a motivated and resilient team that drives our sustainability ambitions forward.

Together, these six focuses form a comprehensive ESG strategy that strengthens our organisation and positions us for sustainable, long-term growth.

A Time-Bound Strategic Pathway

Our ESG strategy is grounded in responsible business practices that create long-term value for our stakeholders. As we navigate a rapidly evolving economic and technological landscape, we recognise that sustainability is not a standalone initiative but a guiding principle that shapes our decisions, operations and aspirations. We have defined our time horizons to effectively implement our strategy and track our progress throughout the journey. Each period has a distinct purpose on our path to creating lasting value:

Short-Term (1–3 years): Our near-term priorities centre on strengthening operational efficiency, ensuring full compliance, and building the data and governance foundations needed to support our broader ESG strategy.

Medium-Term (4–6 years): Over the medium term, we will make meaningful progress on our ESG targets that embed sustainable practices across our operations. These goals are designed to deliver measurable improvements on our material topics and align with our corporate strategic planning.

Long-Term (7+ years): Our long-range ambitions focus on transformational outcomes that contribute to wider societal and environmental goals, including climate action and the transition to a circular economy. These aspirations position us to play a leading role in shaping a sustainable future.

Managing Climate-related Risks and Opportunities

Climate change presents both risks and opportunities. We take a balanced approach that considers potential positive and negative impacts, enabling us to maximise value while minimising adverse effects on our business.

Physical Risks, Transition Risks and Opportunities

We categorise climate-related impacts into physical risks, transition risks and opportunities that are reasonably expected to affect our cash flows, access to finance, or cost of capital.

Physical risks: These include acute events—such as extreme heat, rainfall, storms and other natural disasters—that may disrupt our supply chain and infrastructure, as well as chronic changes like rising sea levels and shifting climate patterns that could affect long-term business viability.

Transition risks: They stem from the global shift toward a low-carbon economy, including more stringent laws and regulations on environmental protection, carbon emission and waste generation. Technological developments and changing market preferences for green suppliers may require adjustments to our business model and operations. These changes may lead to increased risks of regulatory non-compliance resulting in legal, technological, market and reputational risks.

Opportunities: The transition to a low-carbon business model may bring us opportunities. Growing ESG awareness among consumers gradually shapes the market as preferences shift toward more responsible businesses. Efforts to improve energy efficiency and reduce waste not only lower operating costs in the short-term, but also help streamline and optimize operations over the medium term. Emerging low-carbon markets are expected to mature within the next three to ten years, creating new opportunities for growth and innovation. By actively disclosing ESG performance and taking concrete action, we can enhance our reputation, attracting new capital and customers.

Climate Resilience

To assess the potential impacts of climate change on our operations, supply chain, and business model, we have conducted a climate scenario analysis in FY2025. Two externally recognised climate pathways were chosen after considering the scenarios of Intergovernmental Panel on Climate Change (“IPCC”), and the Network for Greening the Financial System (“NGFS”).

The analysis evaluates physical risks, transition risks and opportunities across short-, medium-, and long-term horizons. The results provide insights on how these risks and opportunities could influence our strategy, resource allocation, and overall capacity to adapt under different climate scenarios. Despite thorough consideration, we also recognize significant uncertainties, including future policy directions, technology adoption rates, and the severity of climate impacts.

Scenario Selection: The two chosen climate pathways were widely used and take reference to the scenarios presented by the IPCC. They will help us assess the level of exposure from risks and opportunities, and support our future strategic planning.

Scenarios	Key Assumptions
<p><2°C scenario</p> <p><i>Warming limited to less than 2°C (above pre-industrial levels) before 2100</i></p>	<ul style="list-style-type: none"> ≤ 2°C policy ambition Immediate policy reaction Fast technological change Rapid grid decarbonisation Rising customer expectations Low local exposure to hazards
<p>>4°C scenario</p> <p><i>Warming exceeds 4°C (above pre-industrial levels) before 2100</i></p>	<ul style="list-style-type: none"> ≥ 4°C policy ambition Delayed policy reaction Slow technological change Gradual grid decarbonisation Mild shift in customer expectations High local exposure to hazards

Note:

Source of the two scenarios: Shared Socioeconomic Pathways (“SSP”) from the IPCC’s Sixth Assessment Report - SSP1-2.6 and SSP5-8.5. SSP1-2.6 represents a relatively low emissions scenario, while SSP5-8.5 denotes a high emissions scenario.

SUSTAINABILITY REPORT

Scope and Time Horizons: The analysis covers all of our major operating locations in Singapore. Impacts were evaluated across short-term (1–3 years), medium-term (4-6 years), and long-term (7+ years) horizons, consistent with our time horizons outlined in the Strategy section.

Methodology: For each scenario, we assess the potential operational and financial implications of identified climate-related risks factors. While full quantitative modelling is still in progress, we remain committed to strengthening our data systems and analytical capabilities to support more detailed and quantitative scenario assessments in the future.

Assessment Results: The results of our climate scenario analysis are presented below:

Type of Risk	Relevance or Assumptions	Impact Under a <2°C Scenario			Impact Under a >4°C Scenario

SUSTAINABILITY REPORT

Our climate-related risks and opportunities are concentrated in Singapore, our principal place of operations. Nonetheless, Singapore is a country characterised by well-developed infrastructure, strong emergency preparedness, and robust public healthcare systems. These conditions help moderate exposure to acute physical risks and support continuity across our business activities.

Our Adaptation and Mitigation Plans

Based on the findings of the scenario analysis, we have formulated the below adaptation and mitigation measures to tackle physical and transition risks:

Risk Type	Adaptation and Mitigation Measures
Physical Acute Risks	<p>To effectively tackle the acute risks, we have a robust emergency plan that includes staff training to enhance our resilience:</p> <ul style="list-style-type: none"> • Implement localized mitigation measures and conduct regular drills to address increasingly severe weather risks; • Ensure business continuity with comprehensive supply chain management during adverse conditions; • Activate contingency plans with flexible work arrangements in event of extreme weather; • Advise employees to undertake precautionary measures when necessary; • Promote ventilation and cooling improvements in facilities and supplier plants to improve working conditions; • Position servers, air conditioners, and other critical equipment in locations that meet required flood and wind resistance standards; • Explore energy-efficient equipment and alternative energy sources to reduce reliance on traditional energy supplies; and • Collaborate with local authorities to stay informed and participate in community resilience initiatives.
Physical Chronic Risks	<p>Consideration is given in our long-term planning to tackle chronic risks:</p> <ul style="list-style-type: none"> • Consider flood hazards during office site selection; • Use water-saving equipment and retrofit existing equipment to improve water efficiency; and • Assess alternative water source availability in case of shortages.
Transition Risks	<p>We are strengthening climate governance, and accelerating the shift toward low-carbon technologies and business models to tackle transition risks:</p> <ul style="list-style-type: none"> • Monitor market trends and changes in legal requirement to ensure we satisfy the demands of customers and authorities at all times; • Maintain transparency by producing high-quality climate disclosure; • Collaborate with suppliers to promote adoption of low-carbon materials, processes and technologies; and • Consider climate-related risk in products, services, and value chain to ensure market risks are effectively monitored.
Opportunities	<p>We leverage industry insights to identify and secure emerging climate-related opportunities:</p> <ul style="list-style-type: none"> • Develop lower-carbon product and service offerings; • Invest in energy-efficient and low-emission technologies to reduce costs; • Invest in green bonds to support climate-positive investments.

SUSTAINABILITY REPORT

The Group did not recognize any impairment loss on assets damaged by acute risks in FY2025. We have allocated a budget of up to S\$250,000 over the next five years in preparation of climate uncertainties. Carbon price is currently not applied in our scenario analysis or decision-making.

Our Long-term Transition Plan

A long-term transition plan will set out a clear direction to transform our operations into a low-carbon, climate-resilient business. We are planning to set a long-term climate-related target and are currently conducting desktop research and stakeholder engagement to design the right level of target and transition plan for achieving it. We aim to disclose the target in the near term.

RISK MANAGEMENT

Risk Management Framework

The Group Risk Committee has established a comprehensive risk management framework based on a precautionary approach. Climate-related risk and opportunity identification, assessment, prioritisation, and management are fully integrated into our overall risk management processes. The relevant policy and processes are reviewed annually and updated when necessary.

Climate-related risks and opportunities identification occurs across multiple levels of the Group. We combine a top-down direction from the Board with bottom-up insights from operational departments. The Board regularly reviews and evaluates material climate-related risks and opportunities, while each department identifies its own exposures on a biannual basis. Once a risk is identified, the responsible department designs and implements

mitigation measures and conducts periodic reviews to ensure that controls remain effective over time.

All identified risks and opportunities are considered in shaping our business strategy, objectives, policies, and procedures. Climate-related risks and opportunities are profiled according to their potential impact and likelihood. These assessments also inform the climate scenario analysis described below. Climate-related risks, when identified as both high on potential impact and likelihood, will be prioritised relative to other risks.

Please refer to the Corporate Governance Report section in the Annual Report for more information on the Group's risk management practices.

FOCUS 4: ENVIRONMENTAL RESPONSIBILITY

As an environmentally conscious and responsible business, we recognise that we have a part to play in combating climate change. Intraco ensures that any adverse environmental impacts are well managed, and resource efficiency is explored as an area that can enhance operational efficiency.

Below presents a summary of our performance in FY2025:

FY2025 Targets		Status
Energy	Maintain or reduce the Group's energy consumption intensity in FY2025, using FY2022 as the base year for comparison	Not applicable due to disposal of fire protection business
Water and Effluents	Maintain or reduce the Group's water consumption intensity in FY2025, using FY2023 as the base year for comparison	
Emissions	Maintain or reduce the Group's GHG emission intensity in FY2025, using FY2022 as the base year for comparison

Energy Management Disclosures 302-1, 302-3

The Group's main environmental impact stems from fuel consumption for vehicles and production, as well as electricity consumption for lighting, cooling and air-conditioning.

The Group recognises that good environmental practices will result in operational efficiencies. Improved energy efficiency will translate into lower operational costs and a reduced impact on the environment. We have engaged a greener power supply vendor to manage our carbon footprint. Energy consumption is continuously tracked to identify potential areas for energy efficiency improvement.

The Group continues to increase employees' awareness on energy reduction, and implement the following energy conservation practices:

- Switching off all lights and electronic equipment when not in use, including after office hours and during weekends;
- Enabling energy-saving features on all electronic equipment where available;

SUSTAINABILITY REPORT

- Setting computers to sleep mode after 5 minutes of inactivity;
- Ensuring that external doors and windows are properly closed to prevent cool air from escaping;
- Encouraging telephone calls and video conferences to replace unnecessary travels;
- Maximising the use of natural lighting wherever possible;
- Maintaining temperature of the air-conditioning at 24 degrees Celsius; and
- Maintaining equipment regularly to ensure optimal performance and energy efficiency.

Whenever possible, energy efficient facilities such as air-conditioners that are certified under the Mandatory Energy Labelling Scheme (“MELS”) or equivalent COP (“Certificate of Performance”), and are installed with occupancy sensors and Light Emitting Diode (“LED”) lighting.

The Group’s total energy consumption in FY2025 is presented in the following table. Both total energy consumption and energy consumption intensity have reduced significantly due to the disposal of the fire protection business, which is highly energy-intensive by nature. Due to the shift in business model, the Group has set a target to maintain or reduce the Group’s energy consumption intensity in FY2026, using FY2025 as the base year for comparison. Going forward, the Group will continue to monitor energy consumption as well as identify initiatives to reduce electricity consumption across its operations.

Energy Consumption	Unit	FY2025	FY2024
Total energy consumption	MWh	103.77	720.57
Energy consumption intensity	MWh per employee	3.24	7.58

Note:

The metric for calculating intensity data is total number of employees (FY2025: 32; FY2024: 95). The total number of employees for FY2025 is also used as the metric for calculating other intensity data.

Water and Effluents Management

Disclosures 303-5

The Group strives to consume water wisely and responsibly. The major water use is domestic use in the office buildings and is withdrawn from the city’s water supplier. The Group aims to cultivate water-saving habits among all levels of its staff to achieve sustainable development. No water was consumed from water stress areas.

The Group’s total water consumption in FY2025 is presented in the following table. Both total water consumption and water consumption intensity have reduced significantly due to the disposal of the fire protection business, which is more water-intensive than the rest of the Group. Due to the shift in business model, the Group has set a target to maintain or reduce the Group’s water consumption intensity in FY2026, using FY2025 as the base year for comparison.

Water Consumption	Unit	FY2025	FY2024
Total water consumption	m ³	36.0	3,832.6
Water consumption intensity	m ³ per employee	1.13	40.34

Emissions

Disclosures 305-1, 305-2, 305-4

The Group’s greenhouse gas (“GHG”) emissions mainly consist of direct (Scope 1) GHG emissions and energy indirect (Scope 2) GHG emissions. The Group’s GHG emissions were mainly attributable to the consumption of purchased electricity. The GHG emissions data is presented in terms of tonnes of carbon dioxide equivalent (“tCO₂e”).

In FY2025, the Group’s total GHG emissions were approximately 34.79 tCO₂e, which consists of approximately 14.89 tCO₂e of direct (Scope 1) GHG emissions and approximately 19.90 tCO₂e of energy indirect (Scope 2) GHG emissions. The figures have greatly reduced in FY2025 due to the disposal of the fire protection business. Due to the shift in business model, the Group has set a target to maintain or reduce the Group’s gross GHG emissions intensity in FY2026, using FY2025 as the base year for comparison. The Group develops its target internally based on its strategic planning and did not apply the Science Based Target initiative’s Sectoral Decarbonisation Approach. The use of carbon credits to achieve any net targets is currently not considered.

Types of GHG Emissions	Unit	FY2025	FY2024
Direct GHG emissions (Scope 1)	tCO ₂ e	14.89	152.31
Indirect GHG emissions (Scope 2) – location-based	tCO ₂ e	19.90	47.77
Total GHG emissions (Scope 1&2)	tCO ₂ e	34.79	200.08
GHG emission intensity	tCO ₂ e per employee	1.09	2.11

Note:

1. GHG emissions data is calculated based on, including but not limited to, “The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standards” issued by the World Resources Institute and the World Business Council for Sustainable Development, “Global Warming Potential Values” from the IPCC Sixth Assessment Report and the 2024 grid emission factor published by the Energy Market Authority of Singapore.
2. Scope 2 emissions are calculated using a location-based approach, which considers the average emission intensity of the local electricity grid where the energy is consumed.
3. Our GHG emissions include CO₂, CH₄ and N₂O and are converted to reflect the CO₂ equivalent.

SUSTAINABILITY REPORT

Waste Management

Disclosures 306-1

The Group adopts good corporate practices for waste management. Our practices are reviewed and improved regularly as an integral part of our environmental management system. We realize that the waste and effluents discharged by our Group may have an impact on the environment, therefore 100% of our chemical waste and general waste is subcontracted to a certified waste disposal company. We perform assessment on our waste operators and prefer them to have robust environmentally friendly practices with regard to their waste disposal methods.

We have enhanced our disclosure to include the estimated amount of waste generated from our operations. The waste generated from our operations mainly consists of office paper and general waste. In FY2025, waste generation of the Group totalled approximately 420 kg. The waste generation intensity has increased due to fewer number of employees subsequent to the disposal of the fire protection business. Due to the shift in business model, the Group has set a target to maintain or reduce the Group's waste generation intensity in FY2026, using FY2025 as the base year for comparison.

Waste Generation	Unit	FY2025	FY2024
Total waste generation	kg	420.0	420.0
Waste generation intensity	kg per employee	13.13	4.42

The environmental targets that we have set for FY2026 are summarised below:

FY2026 Targets	
Energy	Maintain or reduce the Group's energy consumption intensity in FY2026, using FY2025 as the base year for comparison
Water and Effluents	Maintain or reduce the Group's water consumption intensity in FY2026, using FY2025 as the base year for comparison
Emissions	Maintain or reduce the Group's GHG emission intensity in FY2026, using FY2025 as the base year for comparison
Waste	Maintain or reduce the Group's waste generation intensity in FY2026, using FY2025 as the base year for comparison

FOCUS 5: PRODUCT RESPONSIBILITY

Product responsibility entails the obligations and accountability that we have toward our customers and the broader society. We strive to ensure that our products are safe, reliable, and meet all applicable quality standards. Any product defects or safety issues will be addressed promptly. We also consider the environmental and social impacts of our products throughout the product lifecycle, and monitor our supply chains to ensure ethical practices of our suppliers.

FY2025 Targets		Status
Supplier Environmental Assessment	Perform environmental assessment for 100% of the new major suppliers	Met
Supplier Social Assessment	Perform social assessment for 100% of the new major suppliers	Met
Customer Health and Safety	Zero incident of non-compliance concerning the health and safety of products and services and zero significant incident of non-compliance that resulted in regulatory breaches	Met

Supply Chain Management

Disclosures 204-1, 308-1, 308-2, 414-1, 414-2

Developing strong supplier relationships will ensure quality consistency and continuity of operations. Our suppliers are primarily international manufacturers and producers, with a strong focus on sourcing plastic resin products and, increasingly, consumer goods like beverages. They are crucial partners for the firm's ASEAN-focused trading and distribution operations, particularly in plastic resin, often involving manufacturers from Vietnam and Malaysia. We engage with our suppliers regularly, with an emphasis on health and safety issues.

We adopt a risk-based approach to ensure that our supply chain is sustainable and reliable. Supply chain risk assessments are regularly carried out to evaluate the quality and regulatory compliance of our suppliers. In FY2025, 100% of the 13 new major suppliers were screened using environmental and social criteria. No supplier was identified as having significant actual and potential negative environmental impacts nor were there any significant actual and potential negative environmental impacts being identified.

SUSTAINABILITY REPORT

About 38% of our total purchases in FY2025 were sourced from local suppliers. Local sourcing enhances supply chain resilience and reduces transportation-related emissions. We will continue to expand our engagement with local suppliers where feasible, supporting the domestic economy and strengthening community partnerships.

Customer Health and Safety

Disclosures 416-1, 416-2

The Group upholds the highest standards on safeguarding customer health and safety. Our production process includes rigorous testing and compliance with regulations. We also exercise duty of care in enforcing protocols and in preventing any lapses in health and safety protection compliance. All of our major products and services are constantly assessed for improvement. There were no incidents of non-compliance with regulations or voluntary codes concerning health and safety impacts of our products and services that resulted in a fine, penalty, or warning during FY2025 (FY2024: Nil).

ITPL

ITPL aims to provide high quality plastic resin products to its customers. It performs regular quality control inspections on its products and services through the use of Certificate of Analysis ("COA"). ITPL ensures that all its suppliers are COA compliant. It also adheres to the procurement practice that it will only procure from suppliers who are certified petrochemical producers. Such practice will be enforced and reviewed annually. ITPL warrants the matching of product specifications with the COA, which accompanies each batch of products manufactured.

Material safety data sheets are also available from suppliers on demand. Besides the COA, ITPL has obtained the International Sustainability and Carbon Certification to meet the needs of its customers.

As the safety of plastic products is one of the main concerns of the industry, ITPL strives to go beyond standards and regulatory requirements. ITPL educates its customers on the proper use of products as well as potential risks and the precautions that they should undertake to minimise potential incidents. This is achieved through training and demonstrations carried out jointly with the manufacturers. To investigate identified issues and make constant improvements, ITPL communicates with the customers to obtain feedback on health and safety related issues.

Intrawave

As part of the telecommunication sector, Intrawave recognises that its core business requires the implementation of strict safety protocols, and has attained BizSafe Level 3 since May 2022. Intrawave is committed to safe operations by ensuring that its employees attend safety courses before they commence any work. Risks and potential hazards are identified and evaluated, and safety precautions are put in place before the commencement of any projects. Intrawave also adheres to its hierarchy of controls and housekeeping rules to minimise installation related hazards when performing work.

Taurus, Provenance, Tradetok and iChange

Due to the business nature of Taurus, Provenance, Tradetok and iChange, the risk on customer health and safety are not considered significant. The Group will continue to be aware of any health and safety issues when they arise.

For FY2026, we have set targets regarding product responsibility as below:

FY2026 Targets	
Supplier Environmental Assessment	Perform environmental assessment for 100% of the new major suppliers
Supplier Social Assessment	Perform social assessment for 100% of the new major suppliers
Procurement Practices	Engage with local suppliers for long-term partnership
Customer Health and Safety	Zero incident of non-compliance concerning the health and safety of products and services as well as zero significant incident of non-compliance that resulted in regulatory breaches

FOCUS 6: HUMAN CAPITAL

Occupational Health and Safety

Disclosures 403-1, 403-2, 403-3, 403-4, 403-5, 403-6, 403-7, 403-8, 403-9

We place a high priority on employee well-being and safety, and operate with strict adherence to relevant local regulations. Our goal is to ensure that we can continue to operate in a safe working environment through the implementation of safe management measures. These are guided by the advisories from the Ministry of Health ("MOH"), Ministry of Manpower ("MOM") and BCA.

SUSTAINABILITY REPORT

A summary of our performance in FY2025 is presented below:

FY2025 Targets		Status

Local Communities	Encourage employees to support the local community by donation or charity work	Met

A comprehensive Safe Management Plan was also created with an aim to enhance safety and identify and manage any health risks that may arise. It includes the following:

- Applying a monitoring plan for safety management measures at the workplace;
- Having two certified safety management officers;
- Appointing a safety distancing officer;
- Adopting a stringent approach to employee safety and health;
- Taking temperatures for employees;
- Placing hand sanitisers at high touch points;
- Communicating with employees on the development, implementation, and evaluation of the Safe Management Plan;
- Applying special arrangements (e.g. split teams) to limit the number of employees at the workplace at any time where possible; and
- Using of digital tools such as teleconferencing, where possible, to conduct daily business activities online.

Our office is equipped with first aid boxes to prepare for any emergency situations. Where applicable, we will provide workplace injury compensation for work accidents that occurred at the workplace according to local regulations. Moreover, all employees, whether full-time or part-time, are entitled to health care coverage by the Group, including Workmen Compensation, Hospitalisation Insurance, Group Personal Accident Insurance, Travel Insurance and Group Term Life Insurance. In FY2025, the Group did not record any work-related injury, and therefore no lost days due to work-related injury. For the safety of employees, the Group

will strive to minimise the potential occurrence of work-related injuries.

ITPL

Although ITPL's business scope is mainly commercial in nature, which does not require onsite work, it adopts a precautionary approach to ensure health and safety risks are minimised in its business functions. For example, ITPL provides driver services for its sales staff in Vietnam to reduce fatigue for long distance driving. ITPL has upgraded the office furniture and equipment by replacing computer screens with visual friendly LED monitors and purchasing ergonomically designed chairs for all employees.

Intrawave

Intrawave specialises in designing and building of radio coverage infrastructure for telecommunication operators and is committed to the highest standards of safety. It complies with all local health and safety requirements, and sub-contractors are engaged to do periodic maintenance of equipment.

At the same time, employees, sub-contractors and customers are provided with health and safety training courses to enhance their understanding of workplace safety issues and procedures.

Due to the nature of its work with Singapore's North East Line ("NEL"), the Group's employees working on NEL are required to pass training courses conducted by SBS Transit ("SBST"), the operator of NEL, or training refresher courses conducted once every three years. SBST's approval on risks identification, assessment and control of any health and safety risk is also required before commencement of work on NEL.

To enhance compliance with these regulatory requirements, the Group has assigned its own Engineering person in-charge and Track Protection Officer qualified by SBST to take charge of safety and efficient execution of engineering works in the NEL premises.

Taurus, Provenance, Tradetok and iChange

Due to the business nature, all employees of Taurus, Provenance, Tradetok and iChange are office staff. The Group applies the same Safe Management Plan as described in this section to ensure the health and safety of its office employees.

SUSTAINABILITY REPORT

Currently, the management is in the process of developing a Group training plan to further upskill employees and provide relevant training for their careers.

Positive Workplace Environment

Disclosure 404-3

A conducive working atmosphere is vital for the Group to thrive and instil a sense of belonging. The Board and management achieve this by promoting open discussions with the employees to understand and address their needs and concerns.

To promote social cohesiveness, regular staff engagement activities, such as virtual team meetings and one-on-one conversations were organised to keep employees informed of the latest updates, align goals and continuously establish ways to improve the organisation.

The Board and Executive Chairman are focused on aligning performance with incentives and setting clear key performance indicators and growth targets for employees. We closely track data such as employee turnover, number of training days to better grasp employee morale and evaluate policies. As a continuous effort, the human resources department also conducts exit interviews for all voluntary resignees. Furthermore, the Group conducts employee performance appraisals and obtains regular feedback on employee experience.

In discharging the Directors' fiduciary duties, all Directors are expected to exercise due diligence and independent judgement and make decisions objectively in the best interest of the Company. A Director who is interested in a transaction or proposed transaction is required to declare if he/she has a conflict or potential conflict of interest and recuse himself/herself from deliberation and decisions involving the areas of potential conflict.

For the purposes of Section 156 of the Companies Act, each Director has given notice to the Company of the entities in which he/she is an officer or member of, and which should be regarded as being interested in any transaction between the Group and such entity. The Directors will periodically update the notice wherever there is any change in his/her directorships.

Below the Board level, there is appropriate delegation of authority and approval sub-limits at management level, to facilitate operational efficiency.

CODE OF BUSINESS CONDUCT AND ETHICS

The Board has put in place a Code of Business Conduct and Ethics to guide the Directors on the areas of ethical risk, and help nurture an environment where integrity and accountability are key.

The Group's Code of Business Conduct and Ethics includes the following key principles:

1. Directors must avoid situations in which their own personal or business interests directly or indirectly conflict, or appear to conflict, with the interests of the Group;
2. Directors must immediately declare conflicts of interest in relation to any matter and recuse themselves from participating in any discussion and/or decision on the matter, and are expected to take necessary mitigating steps (if appropriate) to avoid the conflict;
3. Directors should inform the Secretary in writing as soon as practicable upon any appointments to the board of directors of another public or private company or principal commitments;

Role of Non-Executive Directors

The Non-Executive Directors exercise objective judgement on the Group's affairs independently from Management. The Non-Executive Directors also contribute to the Board process by (monitoring and) reviewing Management's performance against goals and objectives. Their views and opinions provide alternate perspectives to the Group's business. When challenging Management's proposals or decisions, they bring independent judgement to bear on business activities and transactions involving conflicts of interest and other complexities. The challenge is conducted in a constructive and professional atmosphere to evaluate the business options and other risks associated with it adding fresh dimensions to Management's strategy for the best outcome.

CORPORATE GOVERNANCE REPORT

Meetings without Management

The Non-Executive Directors and/or Independent Directors also meet regularly during scheduled and ad-hoc meetings where required without presence of Management to facilitate more open discussions. In furtherance to such meetings, casual discussions were also carried out as and when the need arises to enable the Non-Executive Directors and/or Independent Directors to discuss underlying issues of the Group. All Non-Executive Directors are resident in Singapore.

Directors to receive appropriate and relevant training

All newly-appointed Directors attend an orientation programme to familiarise themselves with the Group's business, operations and governance practices and they are also given materials containing such information. A formal letter of appointment is also provided to any newly appointed Director, setting out his/her duties and responsibilities.

The Group's policies and procedures are also given to the Directors to enable them to gain a clear understanding on the levels of authority in relation to transactions. In addition, Directors are provided with the contact numbers and email addresses of fellow Directors, key executives, the Company Secretaries and Auditors to facilitate efficient and direct access.

The Board is kept up-to-date from time to time on pertinent business developments in the Group's business, including key changes in relevant legislation and regulatory requirements, financial reporting standards, risk management, corporate governance, sustainability issues and industry specific knowledge so as to enable them to properly discharge their responsibilities as Board members or Board committee members. Directors and Management also attend courses to keep abreast of changes in the law and governance matters that may affect the Group.

The Board values ongoing professional development and recognises that it is important that all Directors receive regular training so as to be able to serve effectively on, and contribute to the Board. A training budget has been allocated for Directors to attend relevant training to fulfil their duties as directors.

As part of the Board continuing professional development, the Directors had received more than 40.5 training hours in aggregate through attending various training seminars, courses, conferences and workshops during the year. The Company maintains a register of training to keep track of the training and development hours attended by Directors.

During the year, the Directors attended courses including:

- Ethics & Professional Responsibility
- ACRA Webinar - Implementation of Corporate Service Providers Act
- Anti-Money Laundering - An Introduction
- Employee Fraud: Financial Statement Fraud

In addition, all the Board members have completed the mandated sustainability training courses as required under Listing Rule 720(7).

The external auditors, BDO LLP, routinely update the Audit Committee on new and revised financial reporting standards applicable to the Company.

CORPORATE GOVERNANCE REPORT

Provision 1.3 – Board Approval

The Company has established internal policies and procedures on the types of transactions/activities and financial authorisation limits that require Board approval. These include approval of annual budgets, financial statements, business strategies, and material transactions, such as acquisitions, divestments, funding and investment proposals, all commitments to term loans and lines of credit from banks and financial institutions. Below the Board level, there is appropriate delegation of authority and approval sub-limits at management level, to facilitate operational efficiency.

Provision 1.4 – Delegation of Authority by the Board to Board Committees

To assist in the execution of its responsibilities, the Board had established three (3) Board Committees, namely the Audit Committee (“AC”), Nominating Committee (“NC”), and Remuneration Committee (“RC”), and delegated specific areas of responsibilities to these Board Committees. Each of these Board Committees functions within clearly written terms of reference (“TOR”), which have been approved by the Board.

The composition of the three (3) Board Committees is as follows:

Directors	AC	NC	RC
Mr Mak Lye Mun (Executive Chairman)	-	-	-
Mr Soh Chung Hian	Chairman	Member	Member
Mr Tan Hup Foi @ Tan Hup Hoi	Member	Chairman	-
Ms Ong Beng Hong	-	Member	Chairman
Mr Charlie Ng How Kiat	Member	-	Member

The Board Committees have the authority to deliberate any issue that arises in their specific areas of responsibilities within their respective TOR and report to the Board with their decisions and/or recommendations. The ultimate responsibility and authority for the decisions and actions on all matters rest with the Board.

Besides the Board Committees, there are separate sub-committees at Management level to assist the AC and the Board. The below sub-committees were established and each sub-committee is guided by their respective TOR.

Group Management Committee (“GMC”)

The GMC comprising senior management of the Group’s business units is headed by Mr Mak Lye Mun, the Executive Chairman and Director. The GMC reports directly to the Board.

Under the GMC’s TOR, the GMC is to provide oversight over the business activities of the Group through:

- developing and implementing business strategies, financial and operational plans, forecasts and budgets, policies and procedures;
- driving and monitoring the businesses, operating and financial performance;
- risks management and internal controls; and
- prioritising and allocating resources.

CORPORATE GOVERNANCE REPORT

Group Risk Committee (“GRC”)

The GRC, headed by Mr Michael Tan Kong Yew comprises certain senior management of the Group and reports directly to the AC.

The GRC focuses on identifying, monitoring, tracking and providing guidance on material risks of the Group. This allows for a more structured approach in the Group’s Enterprise Wide Risk Management where the GRC will act as a dedicated committee to have visibility across the entire Group’s material risk activities.

Under the GRC’s TOR, the GRC is to provide oversight under delegated authority of the AC the expected material risks of the Group through:

- driving and setting of the Group’s risk policy direction and framework via the Group’s Material Risk Policy;
- identifying and prioritising measurable key material risk metrics to be periodically monitored and reviewed;
- approving (subject to approval of respective entity’s Board) material limits and delegated authority to business units and/or employees of the Group; and
- ordering of investigation or unscheduled audit review on serious lapses and breaches and appointment of ad-hoc disciplinary committee and decide on its recommendation.

Provision 1.5, 1.6 & 1.7 – Board Processes

The Board and Board Committees meet regularly and whenever necessary to discharge their duties. When required, the Board also sets aside time at the scheduled meetings to meet without the presence of Management. The annual schedules of Board and Board Committee meeting dates are scheduled in advance each year in consultation with the Directors to assist them in planning their attendance.

Ad-hoc meetings are convened when required to address any significant issues that may arise in-between scheduled meetings. Where physical meetings are not possible, timely communication is achieved through electronic means and circulation of written resolutions for approval. The Company’s Constitution provides that the Directors may conduct meetings by means of telephone or video conference or other methods of simultaneous communication.

All draft agendas for meetings are prepared by the Company Secretaries and reviewed by the Chairman of the Board or the Chairman of the respective Board Committees. Papers and/or other information are forwarded to the Directors at least a week in advance of each meeting, enabling sufficient time for their review and consideration. Members of Management are also invited to attend the meetings to present information and/or render clarification when required.

The Board’s responsiveness has allowed Management to manage business and corporate matters effectively. Individual Directors make themselves available and accessible to Management for discussion and consultation outside the formal Board and Board Committees’ meetings.

Senior executives also make presentations on the performance of the Group’s various businesses and business strategies at these meetings. These allow the Board to have a good understanding of the Group’s operations and actively engage in robust discussions with the Group’s senior executives.

CORPORATE GOVERNANCE REPORT

Directors may request for further explanation, briefings or discussions on any aspect of the Group’s operations or business from Management. As and when required, Board members meet to exchange views outside the formal environment of Board meetings.

The Board has unrestricted access to Management and also receives quarterly reports on the financial performance of the Group, strategy implementation updates, key operational matters and updates on potential investment opportunities.

Board and Board Committees papers are disseminated electronically.

Any material variance between the projections and actual results in respect of budgets, is also disclosed and explained.

CORPORATE GOVERNANCE REPORT

The Board is also regularly provided with information and updates on the Company's policies and procedures relating to issues pertaining to governance, disclosure of interests in securities and restrictions on disclosure of price sensitive information, changes in reporting standards and issues which have a direct impact on financial statements so as to enable them to properly discharge their duties and responsibilities as Board members or Board committee members. Where necessary, critical information is highlighted promptly.

Minutes of all Board Committee meetings are circulated to the Board so that Directors are aware of and kept updated as to the proceedings and matters discussed during such meetings. This will also enable the Directors to weigh in on any key points under consideration.

Where appropriate, Directors may also be invited to attend the Board Committee meetings to deliberate the matter collectively.

Access to Management and Company Secretaries

The Board has separate and independent access to Management, the Company Secretaries, as well as to the internal and external auditors. The Company Secretaries and/or their representatives attends all Board and Board Committees meetings and are responsible for ensuring that Board procedures are observed and that applicable rules and regulations are complied with. The Company Secretaries also provide periodic updates to the Board on relevant regulatory changes affecting the Company.

The appointment and removal of the Company Secretaries is a matter for the Board as a whole.

Access to independent professional advice at the Company's expense

The Company has in place a Board endorsed procedure to enable the Directors, whether as a group or individually, to obtain independent professional advice at the Company's expense as and when necessary in furtherance of their duties. Independent advisors include legal, financial, tax, board compensation and M&A functions. The appointment of any such professional advisor is subject to approval by the Board.

BOARD COMPOSITION AND GUIDANCE

PRINCIPLE 2: *The Board has an appropriate level of independence and diversity of thought and background in its composition to enable it to make decisions in the best interests of the company.*

Provision 2.1, 2.2 & 2.3 – Board Composition and Independence of Directors

As at the date of this report, the Board comprises five (5) Directors, one (1) of whom is an Executive Director, three (3) of whom are Independent Directors and one (1) of whom is a Non-Independent, Non-Executive Director. The composition of the Board is as follows:

Mr Mak Lye Mun	Executive Chairman and Director
Mr Soh Chung Hian	Lead Independent Director
Mr Tan Hup Foi @ Tan Hup Hoi	Independent Director
Ms Ong Beng Hong	Independent Director
Mr Charlie Ng How Kiat	Non-Independent, Non-Executive Director

Independent Non-Executive Directors make up a majority of the Board. There are currently no Alternate Directors on the Board.

CORPORATE GOVERNANCE REPORT

Nominee Director Policy

The Company is represented by its key management on the Boards of its subsidiaries.

The representatives on the Group's subsidiary are also guided by its internal nominee director policy where the responsibilities and the duties of the nominee directors are stated clearly therein, notwithstanding that they each owe a fiduciary duty to act in the best interests of the company whose Board they served on, have to:

- serve as a conduit for relaying the views of the Company;
- provide oversights which are consistent with the strategies and goals of the Company;
- communicate regularly to the Company on the operations, subject to regulatory restrictions; and
- apart from familiarising themselves with the business operations and applicable regulations and constitution of the Company and the company on whose board they sit on, they are expected to be familiar with, where applicable, the Company's policies and procedures (including, *inter alia*, its enterprise risk management framework).

Independence of Director

The NC reviews annually the independence of each Director considering the existence of relationships or circumstances, including those provided in the Code, and considers whether a Director has business relationships with the Group. On the latter, the NC will consider whether such relationship can interfere, or be reasonably perceived to interfere, with the exercise of the Directors' independent judgement. Each Independent Director is required to complete a Confirmation of Independence form based on Principle 2 of the Code for the NC's review and recommendation to the Board.

Each independent Director is required to complete an annual declaration to confirm his/her independence based on the applicable Listing Rules and the guidelines as set out in the Code. For the year under review, the NC examined the relationships that might impair the Directors' independence and is satisfied that all the three independent Directors, namely Mr Soh Chung Hian ("Mr Soh"), Mr Tan Hup Foi @ Tan Hup Hoi ("Mr Tan") and Ms Ong Beng Hong ("Ms Ong"), are independent. Each of the NC members, abstained from any discussion and voting on his/her independence matter.

Each of Mr Soh, Mr Tan and Ms Ong has also confirmed their independence.

Ms Ong Beng Hong, one of the independent Directors of the Company, is a director and shareholder of Wong Tan & Molly Lim LLC which provided professional services (including corporate secretarial services) to the Group during FY2025. The NC has assessed the independence of Ms Ong Beng Hong under the Code and is satisfied that the relationship described above will not interfere, or be reasonably perceived to interfere, with the exercise of her independent business judgement in the best interests of the Group, taking into account, amongst others (i) Ms Ong Beng Hong was not personally involved in the professional services provided by Wong Tan & Molly Lim LLC to the Group and such services were provided by other directors and associates of Wong Tan & Molly Lim LLC, and (ii) the aggregate fees paid by the Group to Wong Tan & Molly Lim LLC for the services rendered during FY2025 were below the threshold of S\$200,000 for payments which are deemed significant under the Code.

Mr Charlie Ng How Kiat ("Mr Ng") is not independent by virtue of him representing the interests of the 5% shareholders (as defined under the Code) of the Company.

At the end of FY2025, the NC noted that none of the Independent Directors has served on the Board beyond nine years from the date of his or her first appointment.

CORPORATE GOVERNANCE REPORT

The dates of initial appointment and last re-election of each Director are set out below:

Name of Director	Position	Date of Initial Appointment	Date of last Re-appointment/ Re-election
Mr Mak Lye Mun	Executive Chairman and Director	29 April 2021	25 April 2024
Mr Soh Chung Hian	Lead Independent Director	26 April 2024	24 April 2025
Mr Tan Hup Foi @ Tan Hup Hoi	Independent Director	26 April 2024	24 April 2025
Ms Ong Beng Hong	Independent Director	1 September 2022	25 April 2023
Mr Charlie Ng How Kiat	Non-Independent Non-Executive Director	22 November 2012	24 April 2025

The NC is of the view that in assessing the independence of any Independent Director, one should consider the substance of their professionalism, integrity and objectivity and not merely based on the number of years which they have served on the Board. The rationale for the continuation to serve as an Independent Director is that he/she continues to exercise independent judgement and over time has also developed significant insights of the Group's business and operations and can significantly continue to provide noteworthy and valuable contributions to the Board.

Provision 2.4 – Board to determine its appropriate size and Board Diversity

On a yearly basis, the NC reviews the size and composition of the Board to ensure that the size of the Board is conducive for effective discussions and decision-making and that the Board has the appropriate mix of expertise and experience as well as an appropriate balance of Independent Directors.

The Company has a focused board renewal strategy to progressively bring in diversity of skillsets, views and backgrounds in alignment with the growth of the Group. One-third of the Company's directors (excluding newly appointed directors who will be retiring and seeking re-election pursuant to regulation 119 of the Company's Constitution) will retire and seek re-election at every AGM.

The current Board is made up of a team of high calibre leaders whose diverse expertise and experience in accounting & finance, banking, strategic planning, human resource management, business and management, legal and regulatory, industry knowledge combined provides core competencies necessary to lead and govern the Group effectively. The Directors' objective judgement, collective experience and knowledge are invaluable to the Group and allow for the useful exchange of ideas and views.

The NC, with the concurrence of the Board, considers its current board size of five (5) Directors is appropriate for effective decision-making, considering the scope and nature of the Group's businesses and operations.

Board Diversity

The Board has put in place a Board Diversity Policy which endorses the principle that a diverse Board will enhance the decision-making process by utilising a variety of skills, industry and business experience, gender, age and other distinguishing qualities of the members of the Board. In accordance with the Board Diversity Policy, the NC shall strive for the inclusion of diverse groups and viewpoints. The final decision on selection of directors will be based on merit against the objective criteria set and after giving due regard for the benefits of diversity on the Board.

The Board, supported by the NC, on an annual basis, also reviews the Board's diversity, covering aspects ranging from skills, experience, background, gender, age, ethnicity and culture, tenure of service, independence and other competencies and is of the view that the Board provides an appropriate balance and diversity of skills, experience, background, age and knowledge.

CORPORATE GOVERNANCE REPORT

Skills and Expertise

As at the date of this Annual Report, the Board comprises Directors who, as a group, possesses diverse skills and experience including:

1. Accounting & Finance;
2. Business and Human Resource Management;
3. Strategic Planning and Corporate Development;
4. Legal and Regulatory; and
5. Risks and Credit management.

The Board is of the view that it has achieved the skills and expertise diversity in its composition.

Gender Diversity

The NC, with the concurrence of the Board, has agreed to the target of achieving 20% female director on its Board at all times.

With the appointment of Ms Ong Beng Hong to the Board, the Board has achieved its gender diversity target.

Age Diversity

The Board consists of directors with ages ranging from mid 50s to early 70s, who have served on the Board for different tenures. The Board members with their combined business, management and professional experience, knowledge and expertise, provide the core competencies to allow for diverse and objective perspectives on the Group's business and direction.

The NC will continue to review the Board Diversity Policy, as appropriate, to ensure its effectiveness, and will recommend appropriate revisions to the Board for consideration and approval. It will also continue its identification and evaluation of suitable candidates to ensure there is diversity on the Board, taking into account the scope of the Group's businesses and operation.

CHAIRMAN AND THE CHIEF EXECUTIVE OFFICER

PRINCIPLE 3: *There is a clear division of responsibilities between the leadership of the Board and Management, and no one individual has unfettered powers of decision-making.*

Provision 3.1 – Chairman and Chief Executive Officer (“CEO”) should be separate persons

Mr Mak Lye Mun (“Mr Mak”) is the Executive Chairman and Director of the Company. As the sole Executive Director, Mr Mak oversees the running of the Group's businesses. He is further supported by the Chief Operating Officer (“COO”) of the Company and the key management of the Group's business unit.

Considering the above, the Board is of the view that there is no necessity to appoint a CEO. The nature of the Group's business and operations merit the continuity of an Executive Director to provide Independent Directors with the requisite background and knowledge to facilitate their independent judgement and decision-making.

CORPORATE GOVERNANCE REPORT

The Board is of the view that there is adequate accountability and transparency within the Group. Given that there is a majority of Independent Non-Executive Directors, the Board is also of the view that there are sufficient safeguards and checks to ensure that the process of decision making by the Board is based on collective decisions without any individual or group of individuals exercising any considerable concentration of power or influence.

Provision 3.2 – Role of Chairman

The Executive Chairman presides over the business of the Board and monitors the translation of the Board's decisions and directions into executive action. In addition, the Executive Chairman provides close oversight, guidance, advice and leadership to the senior management. The Executive Chairman also plays a crucial role in fostering constructive dialogue between shareholders, the Board and Management at the Company's general meetings. The Executive Chairman leads the Company's drive to achieve and maintain a high standard of corporate governance with the full support of the Board, Management and Company Secretaries.

The Executive Chairman leads the Board and ensures the effectiveness on all aspects of its role. His responsibilities include, *inter alia*:

1. constructively determining and approving, with the full Board, the Company's strategic direction;
2. ensuring that the Board is properly organised, functioning effectively and meeting its obligations and responsibilities;
3. ensuring that Directors receive complete, adequate and timely information;
4. fostering effective communication and constructive relations amongst the Directors, within Board Committees, between shareholders, between the Directors and Management;
5. day-to-day running of the Group's business in accordance with the business plans and within approved budgets;
6. developing and proposing the Group's strategies and policies for the Board's consideration;
7. implementing the strategies and policies approved; and
8. overseeing the affairs of the Group in accordance with the policies, practices, procedures and values adopted by the Board.

The Executive Chairman also promotes and instills in the entire leadership team the highest standards of integrity, probity and corporate governance within the Group.

Provision 3.3 – Lead Independent Director

Mr Soh is the Lead Independent Director of the Company.

All Non-Executive Directors, led by the Lead Independent Director, meet regularly with the Executive Director and Management to develop strategies for the Group, review the performance of Management and discuss corporate governance matters. Where warranted, the Non-Executive Directors meet for discussions in the absence of Management. The Lead Independent Director provides feedback to the Board as appropriate.

The Lead Independent Director is available to shareholders where they have concerns and for which contact through the normal channels of communication with the Chairman or Management are inappropriate or inadequate.

CORPORATE GOVERNANCE REPORT

BOARD MEMBERSHIP

PRINCIPLE 4: *The Board has a formal and transparent process for the appointment and re-appointment of directors, taking into account the need for progressive renewal of the Board.*

Provision 4.1 & 4.2 – Composition and Role of Nominating Committee (“NC”)

The NC comprises the following members, all of whom (including the Chairman) are Independent Directors:

Mr Tan Hup Foi @ Tan Hup Hoi (Chairman, Independent Director)
Mr Soh Chung Hian (Lead Independent Director)
Ms Ong Beng Hong (Independent Director)

For the year under review, the NC held one meeting and the NC Chairman reports formally to the Board on its proceedings after its meeting on all matters within its duties and responsibilities.

The NC performs the following functions as provided in its TOR:

1. identifying candidates and reviewing all nominations for the appointment or re-appointment of Directors, the CEO of the Group, and determining the selection criteria;
2. reviewing the independence of each Independent Director annually;
3. deciding whether a Director is able to and has been adequately carrying out his duties as Director of the Company, particularly where the Director has multiple board representations;
4. reviewing the Board structure, size and composition and making recommendations to the Board with regard to any adjustments that are deemed necessary;
5. reviewing Board succession plans for Directors, in particular, the Chairman, the CEO and KMPs;
6. determining how the Board and Board Committees’ performance may be evaluated and proposing objective performance criteria for the Board’s approval;
7. reviewing the training and professional development programmes for the Board;
8. reviewing the Board structure, size, composition and balance and making recommendations to the Board; and
9. the re-election of Director(s) by shareholders under the “retirement by rotation” provisions in the Company’s Constitution having due regards to the composition and progressive renewal of the Board, and the competency, performance and contribution of the Director including his attendance, preparedness and participation at Board and its Board Committees meetings. A Director’s time and effort accorded to the Company’s business and affairs will also be considered.

The NC has reviewed its terms of reference to be in line with the Code and the Listing Rules. Further, the NC has also reviewed the Board Diversity Policy and the progress toward achieving the Board Diversity Policy as described under Provision 2.4.

CORPORATE GOVERNANCE REPORT

Provision 4.3 – Procedure for Selection, Appointment and Re-appointment of Directors

The NC recognises succession planning as an important part of the governance process and reviews succession plans annually to ensure that Board membership is refreshed progressively and in an orderly manner. The NC had put in place a formal process for shortlisting, evaluating and nominating candidates for appointment as new Directors.

When an existing Director chooses to retire or the need for a new Director arises, either to replace a retiring Director or to enhance the Board's composition, the NC, in consultation with Management and the Board, determines the qualifications and expertise required or expected of a new Board member. The NC will also consider the current Board size, structure, composition, diversity of skill, competencies and gender. Prospective candidates are sourced through recommendations from Board members, business associates, advisors, professional bodies and other industry players. These candidates are then reviewed by the NC.

The selection criteria include qualifications, integrity, independence, leadership skills, competencies, industry experience, time commitment, financial literacy and ability to contribute effectively to the Board.

The evaluation process will also involve an interview or meeting with the nominee or candidate. Appropriate background and confidential searches will also be made. Recommendations of the NC are then put to the Board for consideration. Any appointment to Board Committees is reviewed and approved at the same time.

The Company may appoint professional search firms and recruitment consultants to assist in the selection and evaluation process if the appointment involves specific skill sets or industry specialisation.

In accordance with Regulation 115 of the Company's Constitution, at least one-third of the Directors (excluding newly appointed directors who will be retiring and seeking re-election pursuant to Regulation 119 of the Company's Constitution) for the time being shall retire from office by rotation. The retiring Directors are eligible to offer themselves for re-election.

The NC had recommended to the Board that Mr Mak Lye Mun and Ms Ong Beng Hong shall each retire in accordance with Regulation 115 of the Company's Constitution and be nominated for re-election at the forthcoming AGM. The Board had accepted the NC's recommendation.

Mr Mak Lye Mun and Ms Ong Beng Hong had each abstained from the discussion and taking a decision in respect of their own nomination.

Provision 4.4 – NC's Determination of Independent Director's Independence

The NC is charged with determining the independence of the directors as set out under Provision 2.1 above as well as the relationships or circumstances which would deem a director not to be independent. The NC had reviewed the independence of Mr Soh, Mr Tan and Ms Ong as described under Principle 2 above.

Provision 4.5 – Board Representations

Where a Director has multiple Board representations, the NC will determine if the Director has been able to devote sufficient time and attention to the Company's affairs and if he/she has been adequately carrying out his duties as a Director. The recommendation of the NC for the nomination of a Director for re-election is then made to the Board. The Board will review this recommendation.

CORPORATE GOVERNANCE REPORT

All Directors are required to declare their Board representations. The NC is of the view that the number of directorships a Director can hold and his/her principal commitments should not be prescriptive as the time commitment for each board membership will vary. The NC also considers both the results of the assessment of the effectiveness of the individual Directors and their actual conduct during Board and Board Committee meetings and ad-hoc discussions and considers the number of listed company board representations which each Director holds on an annual basis or from time to time when the need arises. In this respect, the NC believes that it would not be necessary to prescribe a maximum number of listed company board representations a Director may hold. The Board affirms and supports this view.

During the year, the NC had reviewed the assessment of the individual Director and the directorships and principal commitments disclosed by each Director and was of the view that the existing directorships and principal commitments of the respective Directors do not impede their abilities to discharge their duties to the Company. The Board concurred with the NC.

The table below shows the disclosure of directorships and chairmanships held over the preceding three years in other listed companies as well as other principal commitments of each respective Director:

CORPORATE GOVERNANCE REPORT

BOARD PERFORMANCE

PRINCIPLE 5: *The Board undertakes a formal annual assessment of its effectiveness as a whole, and that of each of its board committee and individual directors.*

Provision 5.1 & 5.2 – Assessing the effectiveness of the Board, Board Committees, Individual Director

The Board has established a set of criteria for evaluating the effectiveness of the Board and Board Committees, as well as each individual Director.

The NC has in place an annual Board Performance Evaluation exercise to evaluate the effectiveness of the Board and facilitate discussion to enable Directors to discharge their duties more effectively. The evaluations are carried out by means of a questionnaire being completed by each Director. The results of the completed questionnaires are collated, and the findings are analysed and discussed by the NC, with comparatives from the previous year's results and reported to the Board.

The availability of the performance evaluation results promptly allows the swift identification of issues and matters that may require the Board's attention and development of action plans to resolve these issues.

The Board performance evaluation provides an opportunity to obtain constructive feedback from each Director on whether the Board's procedures and processes had allowed him to discharge his duties effectively. The results of the respective Board Committees and the Board are comprehensively documented and shared amongst the Board Directors upon review by the NC.

Board Evaluation Criteria

The Board evaluation questionnaire takes into consideration qualitative factors such as Board composition, information flow to the Board, Board process, Board accountability, Board diversity, matters relating to review of environmental, social and governance factors matters concerning top management and standards of conduct of Board members. The NC would review the need to set quantitative or qualitative targets for future performance criteria as appropriate.

The performance criteria will not be changed from year to year unless circumstances deem it necessary for any of the criteria to be changed, for example to align with changes to the Code and Listing Rules and the onus should be on the entire Board to justify the decision.

Board Committees and Individual Director Evaluation

The NC also has an annual performance evaluation exercise for each of the Board Committees. The performance evaluations of the AC, NC and RC are similarly carried out with questionnaires. The results are collated and compiled by the Company Secretaries. The findings with comparatives from the previous year's results are discussed by the NC. Areas of strength or improvements and recommendations, if any, will be reported to the Board. The Board Committees performance evaluation questionnaires take into consideration the extent of how effectively each respective committee has carried out its duties and responsibilities.

The scope of evaluation covers the size, composition, trainings and resources, processes of the Board Committees and their access to information and reference to guidelines as set out in the SID's Board Committees Guide.

Individual Director assessment is also conducted whereby each Director is evaluated on his/her contributions to the proper guidance, diligent oversight and able leadership, and the support that he/she lends to Management in steering the Group.

CORPORATE GOVERNANCE REPORT

The NC was generally satisfied with the FY2025 Board and Board Committees' performance evaluation results. No significant problems were identified. The NC will continue to review the evaluation process from time to time.

The NC is of the view that the primary objective of the assessment exercise is to create a platform to identify the Board Committees' and Board's strengths and make recommendations for improvements to be tabled to the Board for discussion and comment with a view to strengthening and effectiveness of the Board Committees and the Board. The Company has not engaged any external facilitator to conduct the performance evaluation of the Board Committees, Board and individual director. Where relevant and when the need arises, the NC will consider such an engagement.

Executive Director Evaluation

The NC had also conducted an evaluation of the Company's Executive Director for FY2025. The criteria for the Executive Director evaluation focus on leadership, strategy formulation, strategy execution, financial planning/performance, human resources management/relations and relationship with the Board. The outcome of the evaluation was reported by the NC to the Board. Appropriate feedback to the Executive Director was conveyed by the NC Chairman.

REMUNERATION MATTERS

PRINCIPLE 6: *There should be a formal and transparent procedure for developing policy on executive remuneration and for fixing the remuneration packages of individual directors. No director should be involved in deciding his own remuneration.*

Provision 6.1 & 6.2 – Composition and Role of the Remuneration Committee ("RC")

The RC comprises the following members, two of whom (including the Chairman) are Independent Non-Executive Directors:

Ms Ong Beng Hong (Chairman, Independent Director)
Mr Soh Chung Hian (Lead Independent Director)
Mr Charlie Ng How Kiat (Non-executive Non-Independent Director)

For the year under review, the RC held one meeting and the RC Chairman reported formally to the Board on its proceedings after its meeting on all matters within its duties and responsibilities. Where required, the RC also sets aside time to meet without the presence of Management at RC meeting to discuss matters such as the remuneration of KMP.

The TOR of the RC include:

1. recommending Non-Executive Directors' fees, Executive Director's and CEO's (if any) remuneration to the Board in accordance with the approved remuneration policies and processes of the Company;
2. reviewing service contracts for the Executive Director, CEO and KMP to keep in line with the guidelines on contractual provisions set out in the Code;
3. looking into service contract provisions that allow the Group to reclaim incentive components of remuneration from the Executive Director, CEO (if any) and KMP in exceptional circumstances of misstatement of financial results, or of misconduct resulting in financial loss to the Group;
4. reviewing the remuneration of the top five (5) KMP (who are not Directors) in accordance with the approved remuneration policies and processes of the Company;

CORPORATE GOVERNANCE REPORT

5. reviewing the eligibility of the Executive Director, CEO (if any) and KMP for benefits under any long-term incentive schemes;
6. administering the INTRACO Employee Share Option Scheme (“ESOS 2023”) and INTRACO Performance Share Plan (the “PSP 2023”) and any other share option scheme or share plan established from time to time for the Directors and KMP. More information on the ESOS 2023 and PSP 2023 is set out in the Directors’ Statement on pages 87 to 89;
7. reviewing the remuneration packages of employees who are related to any Director, substantial shareholder or the CEO (or executive of equivalent rank); and
8. ensuring that an appropriate proportion of the remuneration of Executive Directors and KMP are structured so as to link rewards to corporate and individual performance.

For FY2025, the RC had also reviewed its terms of reference to be in line with the Code.

Provision 6.3 – Remuneration Framework

There is a formal and transparent process for developing executive remuneration and for determining the remuneration packages of individual Directors. No Director is involved in determining his own remuneration.

The RC reviews all matters concerning the remuneration of the Directors to ensure that remuneration commensurate with their contributions, responsibilities and market benchmarks.

The annual quantum of Directors’ fees to be paid is also reviewed by the RC and the Board before submission to shareholders for approval at the Company’s AGM. None of the Non-Executive Directors has service contracts or consultancy arrangements with the Company. They are paid Directors’ fees based on a structured fee framework reflecting the responsibilities and time commitment of each Director. The fee framework comprises a base fee and additional fee for holding appointment as Chairman or member of the Board committees.

The RC also reviews the remuneration packages of the Executive Director and KMP and submits its recommendations to the Board for endorsement. A fundamental element in the remuneration principles is the concept of pay for performance and the RC will look at the total remuneration provided which comprises annual fixed salary and variable salary component. The variable salary component is in the form of variable bonus that is linked to the performance of the Group and the individual’s performance.

The RC also reviews the Company’s obligations under the service agreements of the Executive Director and KMP that would arise in the event of termination of these service agreements to ensure that such service agreements contain fair and reasonable termination clauses.

The RC sets the remuneration guidelines for the Group for each annual period including annual increments, total incentives for distribution to staff of all grades and structuring long-incentive plans, if applicable.

Provision 6.4 – RC access to expert professional advice

The RC has access to expert professional advice on remuneration matters as and when it deems necessary in framing the remuneration of Directors. The expenses incurred from such advice shall be borne by the Company. For FY2025, no remuneration consultant was appointed to review the remuneration of Directors and KMP.

CORPORATE GOVERNANCE REPORT

LEVEL AND MIX OF REMUNERATION

PRINCIPLE 7: *The level and structure of remuneration of the Board and key management personnel are appropriate and proportionate to the sustained performance and value creation of the company, taking into account the strategic objectives of the company.*

Provision 7.1 & 7.3 – Remuneration of Executive Directors and KMP

In setting remuneration packages, the RC takes into consideration the prevailing market conditions, the pay and employment conditions within the industry and in comparable companies.

The RC reviews the remuneration of Directors and KMP on an annual basis to ensure that it commensurate with their performance, giving due regard to the financial and commercial health and business needs of the Company.

As part of its review, the RC ensures that the performance-related elements of remuneration form an appropriate part of the total remuneration package of the KMP and that each package is designed to align their interests with those of shareholders and link rewards to corporate and individual performance. The RC will review the key performance indicators (“KPIs”) of the KMP and part of the KPIs will be tied to the profitability of the specific business which the individuals are managing.

Performance Based Compensation

The Group adopts a remuneration policy that is performance based for KMP, comprising a fixed component and a variable component. The fixed component is in the form of a base salary and benefits. The variable component is in the form of a variable bonus that is linked to the Company’s and individual performance. The RC also endorses the bonus distribution for KMP based on individual performance and presents its recommendation to the Board for approval.

In determining the fixed and variable component of the remuneration package, Management makes its recommendation to the RC, having regard to the individual KMP’s KPIs, such as (a) profit target; (b) strategic requirements and goals of the Company; (c) investment in future growth; (d) the individual’s contributions to these objectives. The Group rewards KMP with outstanding performance, who have fulfilled their obligations and met their KPIs as well as contributed to the growth and development of the Group.

Long-term Incentive Scheme

The Company has also put in place the ESOS 2023 and PSP 2023 which are long-term employee share incentive plan/scheme to better align the interest of Directors and KMP with that of the Company’s shareholders. See further details on page 73.

The Company will also be renewing its Share Buyback Mandate which provides the Directors with the flexibility to utilise the shares which were purchased or acquired and held as treasury shares for any long-term share incentive schemes to be initiated by the Company as a means to reward and improve the long-term performance of the employees and in turn the Company and Group at large. The Company will utilise treasury shares instead of new issuance of shares as this would provide greater flexibility to manage and minimize the dilution impact (if any) arising from the share incentive schemes.

CORPORATE GOVERNANCE REPORT

Reclaim Incentive Components

The RC and Board are of the view that as the Group pays variable compensation through bonuses based on the actual results of the Group as well as the achievement of KPIs by its KMPs, claw back contractual provisions may not be relevant/applicable. Therefore, there are no contractual provisions which allow the Company to reclaim incentive components of remuneration from the KMP in exceptional circumstances of misstatement of financial results, or of misconduct resulting in financial loss to the Company. The Company should be able to avail itself to remedies against the KMP in the event of such incidents.

Provision 7.2 – Remuneration of Non-Executive Directors

The RC has recommended to the Board a total amount of up to S\$215,000 as Directors' fees for the financial year ending 2026 ("FY2026"), to be paid quarterly in arrears. This would be tabled at the forthcoming AGM for shareholders' approval.

The Board concurred with the RC that the proposed Directors' fees for FY2026 is appropriate and not excessive, taking into consideration the level of contributions by the Directors, their responsibilities and obligations and factors such as efforts and time spent for serving on the Board and Board Committees.

The structure of the Directors' fees is as follows:

	Chairman	Member
Board	S\$60,000	S\$30,000
Audit Committee	S\$20,000	S\$15,000
Nominating Committee	S\$11,250	S\$5,625
Remuneration Committee	S\$11,250	S\$5,625

DISCLOSURE ON REMUNERATION

PRINCIPLE 8: *The Company is transparent on its remuneration policies, level and mix of remuneration, the procedure for setting remuneration, and the relationships between remuneration, performance and value creation.*

Provision 8.1, 8.2 & 8.3 – Remuneration of Directors, CEO and Top Five KMP

Every Non-Executive Director receives a basic fee. In addition, he/she receives a Chairman's fee if he/she is the Chairman of the Board, as well as the relevant Board Committee fee (depending on whether he/she served in the capacity as the Chairman or as a member of the relevant Board Committee) for each position held on a Board Committee.

The amounts of Directors' fees have been computed on the basis of the anticipated number of Board and Board Committee meetings for FY2026, assuming attendance by all the Directors at such meetings, and also caters for additional fees (if any) which may be payable due to additional ad-hoc meetings. Additional Directors' fees (if any) over and above the approved Directors fees will only be paid if approved at the next AGM.

In FY2025, the total remuneration received by Mr Mak was S\$357,992, excluding the value of the second tranche of 333,333 performance shares vested on 28 April 2025. These performance shares were awarded to him in April 2023 pursuant to his three-year employment contract on 7 July 2022. The final tranche of 333,334 shares shall vest on 27 April 2026. On 28 April 2025, Mr Mak renewed his employment with the Company for a term of three years with effect from 15 July 2025.

CORPORATE GOVERNANCE REPORT

Given the confidentiality and sensitive nature of the subject, the Company is of the view that it is not in the best interest of the Company to disclose the specific remuneration of the KMP as this disclosure may adversely affect the Company's talent retention. The Company believes that disclosure of the KMP's (excluding CEO) remuneration in bands of S\$250,000 should be sufficient to provide an insight into the link between their compensation and performance and sufficient for shareholders to have an adequate appreciation of the remuneration of the Company's KMP. Further details are deemed to be not in the interest of the Company due to the competitiveness of the industry for key talents. The aggregate remuneration paid to the KMP (who are not Directors or CEO of the Company) in FY2025 amounted to S\$1,190,196.

Apart from the above, no termination, retirement and post-employment benefits were granted to the Directors, CEO and the KMPs for FY2025.

Employees who are Substantial Shareholders, Immediate Family Members of a Director or the CEO or a Substantial Shareholder

There are no employees who are substantial shareholders of the Company or immediate family members of a Director, the CEO or a substantial shareholder, and whose remuneration exceeds S\$100,000 in FY2025.

INTRACO Employee Share Option Scheme ("ESOS 2023") and INTRACO Performance Share Plan ("PSP 2023")

The Company had on 25 April 2023 adopted the ESOS 2023 and the PSP 2023.

Eligible participants (the "Participants") under the ESOS 2023 will have the opportunity to participate in the equity of the Company, thereby aligning the interests of the Participants with the interests of the Company and the shareholders, motivating them towards the long-term growth and profitability of the Group and better performance through increased dedication and incentives. The ESOS 2023 also enables the Group greater flexibility in structuring compensation packages of eligible Participants so that the Group is able to offer compensation packages that are competitive in order to motivate and retain its employees. The employees of the Group, including Non-Executive Directors, are eligible to participate in the ESOS 2023 Scheme. The ESOS 2023 is administered by the RC. No options were granted under the ESOS 2023 Scheme since its adoption.

The PSP 2023 gives the Group added flexibility in structuring more competitive remuneration packages to award, retain and motivate those executive personnel and Non-Executive Directors (collectively, the "Participant") to successfully manage and guide the Group respectively for the long-term. This is vital to the well-being, sustained performance and value creation of the Group. The PSP 2023 is administered by the RC. When deciding on the number of shares to award to a Participant at any one point in time, the RC will also take into consideration the number of shares to be awarded to that Participant under any other share scheme at that time, if any.

Pursuant to Mr Mak's employment contract dated 7 July 2022, subject to his continued employment as the Executive Chairman of the Company, 1,000,000 ordinary shares were awarded to Mr Mak to be vested over a three-year period and release schedule as follows:

- (a) 333,333 Shares shall vest, and be released to Mr Mak Lye Mun, on the first anniversary from the *Date of Grant (the "First Vesting Date");
- (b) 333,333 Shares shall vest, and be released to Mr Mak Lye Mun, on the second anniversary from the Date of Grant (the "Second Vesting Date"); and

**the date of grant was 28 April 2023 as announced on the same date.*

CORPORATE GOVERNANCE REPORT

Remuneration and Performance

The Company is of the view that the current disclosure provides sufficient overview of the remuneration of the Group while maintaining confidentiality of staff remuneration matters. Annual variable bonuses would be linked to achievement of financial and non-financial key performance indicators such as core values, competencies, key result areas, performance rating, and potential of the employees (including key management). Long-term incentive plans are conditional upon pre-determined performance targets being met and the long-term incentive plans serve to motivate and reward employees and align their interests to maximise long term shareholders' value.

The RC ensures that there is a strong correlation between bonuses payable, and the achievement and performance of the Group and individual staff. The RC also ensures that there is a good balance of short-term and long-term incentive schemes to motivate continuous and sustainable performance.

RISK MANAGEMENT AND INTERNAL CONTROLS

PRINCIPLE 9: *The Board is responsible for the governance of risk and ensures that Management maintains a sound system of risk management and internal controls, to safeguard the interests of the company and its shareholders.*

Provision 9.1 & 9.2 – Design, Implementation and Monitoring of Risk Management and Internal Control Systems

The Board has overall responsibility for the governance of risk and exercises oversight of the material risks in the Group's business. The Board ensures that Management maintains a sound system of internal controls and effective risk management policies to safeguard shareholders' interests and the Group's assets and in this regard, is assisted by the AC which conducts the reviews of the adequacy and effectiveness of the Group's internal controls and risk management systems.

The identification and management of risks are delegated to Management, who assumes ownership and day-to-day management of these risks. Management reports to the AC on the Group's risks profile on a quarterly basis, evaluates results and counter measures to mitigate identified potential risks.

Adequacy and Effectiveness of Risk Management and Internal Control Systems

The Board has adopted an enterprise risk management ("ERM") framework. This risk framework has five (5) principal risk categories, namely strategic, financial, operational, compliance and information technology risks.

The Group's risk management framework is aligned with the Committee of Sponsoring Organisations of the Treadway Commission (COSO) Internal Controls Integrated Framework.

Management is responsible for the effective implementation of the risk management strategy, policies and processes to facilitate the achievement of business plans and goals within the risk tolerance established by the AC and Board. Key business risks are proactively identified, addressed and reviewed on an ongoing basis. Identified risks that affect the achievement of the Group's business objectives are compiled in the Group Risks Register and are ranked according to the likelihood and consequential impact to the Group as a whole.

Risk Management Policies and Processes

The main risks arising from the Group's financial operations are liquidity risk, foreign currency risk, credit risk, equity price risk and interest rate risk. Details on the foregoing are set out in the Notes to the Financial Statements. These risks are monitored by AC and the Board on a quarterly basis.

CORPORATE GOVERNANCE REPORT

The Company's Internal Auditor reviews material internal controls as part of the internal audit plan to provide independent assurance to the AC and the Board on the adequacy, effectiveness and integrity of the Group's internal controls and risk management systems.

Adequacy and Effectiveness of Internal Controls

The IA presents their findings to the AC on an annual basis. If any non-compliance or internal control weaknesses are noted during the audit, the corresponding recommendations and Management's responses are reported to the AC.

In addition, the external auditors will highlight any material control weakness within the Group discovered in the course of the statutory audit to the AC.

The AC and the Board review the adequacy and effectiveness of the risk management and internal controls system at least annually.

On a half-yearly and annual basis, the CEO and CFO (or equivalent) provide written confirmations ("Management Assurance Letters") to the Board confirming that:

1. the financial records have been properly maintained and the financial statements give a true and fair view of the Company's operations and finances;
2. nothing has come to Management's attention which might render the financial results of the Group as at the end of the financial year to be false or misleading in any material aspect;
3. Management is aware of their responsibilities for establishing, maintaining and evaluating the adequacy and effectiveness of the risk management and internal control systems of the Company; and
4. there are no known significant deficiencies or lapses in the risk management and internal controls systems relating to the Company's financial, operational, compliance and information technology controls which could adversely affect the Company's ability to record, process, summarise or report financial data, or of any fraud, whether material or not.

For FY2025, the Board had received the Management Assurance Letters duly signed by the (i) Executive Director and the Chief Operating Officer; and (ii) the Executive Director and other KMPs.

Based on the internal controls established and maintained by the Company, work performed by the internal and external auditors, reviews performed by Management and the various Board Committees and the Management Assurance Letters, the Board, with the concurrence of the AC, is of the opinion that the Group's internal controls and risk management systems were adequate and effective as at 31 December 2025 to address financial, operational and compliance risks, including information technology risks, which the Company considers relevant and material to its operations.

The Board is updated quarterly on the Group's financial position and performance with explanations for material variances in financial performance provided. The updates also include key business and operational activities.

While the Board acknowledges that the system of internal controls and risk management established by Management provide reasonable, but not absolute assurance that the Group will not be adversely affected by any event that can be reasonably foreseen as it endeavours to achieve its business objectives, it is also mindful that no system of internal controls and risk management can provide absolute assurance in this regard, or absolute assurance against poor judgement in decision making, human error, fraud or other irregularities.

Accordingly, the Company has complied with Listing Rule 1207(10).

CORPORATE GOVERNANCE REPORT

Separate Risk Committee

The responsibility of overseeing the Company's risk management framework and policies is undertaken by the AC during the year under review.

Management is responsible for the design, execution and reporting of the Enterprise Risk Management. Further, Management is responsible to propose to the AC, mitigation plans to reduce the reported risks.

Management is to report on events that represent new risks to the Company.

The AC is responsible for determining the Group's levels of risk tolerance and risk policies and oversees Management's implementation and monitoring of risk management and internal control systems.

Having considered the Company's business operations as well as its existing internal control and risk management systems, a Group Risk Committee ("GRC") at Management level was set up in 2023. The GRC is accountable to the AC. The GRC regularly reviews the Group's business and operational activities to identify areas of significant business risks as well as appropriate measures to control and mitigate these risks. The GRC reviews all significant control policies and procedures and highlights all significant matters to the AC and Board.

Accountability for Accurate Information

The Board endeavours to ensure that the annual audited financial statements and half-yearly announcements of the Group's results present a balanced and understandable assessment of the Group's position and prospects. The Board embraces openness and transparency in the conduct of the Company's affairs, whilst preserving the commercial interests of the Company. Financial and other price sensitive information are disseminated to shareholders through timely announcements via SGXNet.

The AC and the Board also meet to review and monitor the Group's performance at regular intervals besides the Group's half-yearly and full year financial performance.

Compliance with Legislative and Regulatory Requirements

In line with the requirements of the SGX-ST, negative assurance confirmation statements were issued by the Board to accompany the Group's interim financial results announcements, confirming to the best of the Board's knowledge that nothing had come to the Board's attention which could render the Group's results announcements to be false or misleading in any material aspect. This is in turn supported by a written confirmation from the (i) Executive Director and Chief Operating Officer and (ii) the Executive Director and KMPs of all subsidiaries (see explanation under Provision 9.2 above). The Group is not required to issue negative assurance confirmation statements for its full year results announcements.

The Company also completes and submits the compliance checklists to SGX-ST (if applicable) to ensure that all financial results announcements, circulars and letters to shareholders comply with the minimum requirements set out in the listing manual of the SGX-ST.

Management Accounts

Management provides the Board with a continual flow of relevant information on the Group's operational, financial and compliance matters on a timely basis, including quarterly management reports in order that the Board may effectively discharge its duties.

CORPORATE GOVERNANCE REPORT

AUDIT COMMITTEE

PRINCIPLE 10: *The Board has an Audit Committee (“AC”) which discharges its duties objectively.*

Provision 10.2 – Composition of the AC

The AC oversees the quality and integrity of the accounting, auditing, internal controls and financial practices of the Group. The AC comprises the following members:

Mr Soh Chung Hian (Chairman, Lead Independent Director)
Mr Tan Hup Foi @ Tan Hup Hoi (Independent Director)
Mr Charlie Ng How Kiat (Non-executive Non-Independent Director)

For the year under review, the AC held four (4) meetings and the AC Chairman reported formally to the Board on its proceedings after each meeting on all matters within its duties and responsibilities. The minutes of the AC meetings are also made available to the Board.

Expertise of AC Members

The Board is of the view that the AC members, having accounting and related financial management expertise and experience, are appropriately qualified to discharge their responsibilities. All members of the AC have many years of experience in senior management positions in both financial and industrial sectors.

Authority of the AC

The AC has explicit authority to investigate any matter relating to the Group’s accounting, auditing, internal controls and financial practices brought to its attention with full access to records, resources, and personnel to enable it to discharge its functions properly; and has full access to and cooperation of Management and the discretion to invite any Director or officer to attend its meetings.

Provision 10.1 – Duties of AC and Activities of the AC

The AC is guided by its written Terms of Reference (“TOR”), which set out its authority and duties. The TOR of the AC include:

1. reviewing the audit plans of the internal and external auditors of the Company, and their reports arising from their audits including Management’s response to their letter to Management;
2. reviewing the financial statements of the Company and the consolidated financial statements of the Group;
3. reviewing the balance sheet and profit and loss account of the Company and the consolidated balance sheet and profit and loss account to ensure the integrity of the financial statements and any formal announcements relating to the financial performance of the Company and of the Group;
4. reviewing the half-year and full year results announcements of the Group before submission to the Board for approval;
5. reviewing and reporting the adequacy and effectiveness of material internal controls, including financial, operational, compliance and information technology controls and risk management systems;
6. the cost-effectiveness, independence and objectivity of the external auditors, nature and extent of non-audit services provided and approval of audit and non-audit fees payable to the external auditors. Audit and non-audit fees which comprised corporate tax compliance services paid to the external auditors, BDO LLP, amounted to 166,000 and 17,515 respectively;

CORPORATE GOVERNANCE REPORT

7. making recommendations to the Board for the appointment or re-appointment of the external auditors of the Company;
8. reviewing interested person transactions (“IPTs”) to ensure that the current procedures for monitoring of IPTs have been complied with and that the IPTs are on normal commercial terms and not prejudicial to the interests of the Company’s minority shareholders;
9. reviewing the scope and results of the internal audit procedures, and the adequacy and effectiveness of the Company’s internal audit function;
10. approving the hiring, removal, evaluation and compensation of the Head of the Internal Audit function, or accounting/auditing firm or corporation if the internal audit function is outsourced;
11. directing Management to report regularly to AC on the Company’s risk profile and the status of risk mitigation action plans; and
12. reviewing the Company’s whistle-blowing policy, and to ensure that arrangements are in place for concerns about possible improprieties in matters of financial reporting or other matters to be raised and independently investigated, and for appropriate follow-up action to be taken.

During FY2025, the AC had carried out the above duties as provided in their TOR. In addition, the AC also assessed and ensured adequate cash flow to sustain the Group’s operations on an on-going basis and assisted the Board to review the Company’s sustainability reporting framework.

For FY2025, the AC had also reviewed its TOR to be in line with the Code.

The external auditors provide regular updates and periodic briefings to the AC on changes or amendments to accounting standards to enable the AC to keep abreast of such changes and their corresponding impact on the financial statements, if any. The AC is entitled to seek clarification from Management, the external auditors and independent professional advisors and to attend relevant seminars at the Company’s expense to apprise themselves of accounting standards/ financial updates.

The AC had recommended, and the Board had accepted proposing to shareholders of the Company, the reappointment of BDO LLP as the independent auditors for the Group in the ensuing year. Save for certain of the Company’s Singapore subsidiaries which have appointed CKS Associates PAC as their auditors, BDO LLP is the auditor of the Company. The Board and AC are satisfied that the appointment of CKS Assurance PAC would not compromise the standard and effectiveness of the audit of the Company. The Company has complied with Listing Rules 712 and 715 (read with 716) of the Listing Manual.

The Group’s subsidiaries disclosed under Notes 5 of the Notes to the Financial Statements on pages 114 to 117 of the Annual Report.

Meeting with External Auditors and Internal Auditors

The AC had met with the internal auditors at least once without the presence of Management. This is part of the routine business of the AC meeting where the internal auditors will report directly to the AC on its internal audit matters.

The AC meets with the external auditors without the presence of Management, at least annually to discuss any issues they may have (including suspected fraud or irregularity, or suspected infringement of any applicable law, rules or regulations, which has or is likely to have a material impact on the Company and Group’s operating results or financial position), and Management’s response thereof.

Both sets of auditors had confirmed that they had access to and received full co-operation and assistance from Management and no restrictions were placed on the scope of their audit.

CORPORATE GOVERNANCE REPORT

Review the Independence of External Auditors

The AC confirms that the Company has complied with Listing Rule 712 in that BDO LLP is registered with the Accounting and Corporate Regulatory Authority (ACRA). The AC is satisfied that the resources and experience of BDO LLP, the audit engagement partner and the team assigned to the audit of the Group were adequate to meet their audit obligations, given the size, nature, operations and complexity of the Group. The AC also reviewed all non-audit services provided by the external auditors and is of the opinion that the nature and provision of such services would not affect the independence and objectivity of the external auditors. The external auditors have confirmed their independence in this respect.

Whistle-blowing Policy

The AC also reviews arrangements by which staff of the Company and external parties may, in confidence, raise concerns about possible improprieties in financial reporting or other matters. The Group has in place a whistle-blowing policy to ensure independent investigations of such matters and for appropriate follow up action. Such concerns include dishonesty, fraudulent acts, corruption, legal breaches and other serious improper conduct; unsafe work practices and any other conduct that may cause financial or non-financial loss to the Group or damage to the Group's reputation.

The policy is aimed at encouraging the reporting of such matters in good faith, with the confidence that staff of the Company and other persons making such reports will be treated fairly and, to the extent possible, protected from reprisal. Complaints or suspicions of impropriety can be made in the form of emails, faxes, letters or written reports. A dedicated email address is maintained to receive such complaints or reports. Anonymous complaints may be considered, taking into account factors such as the seriousness of the issues raised, the credibility and the likelihood of confirming the allegation from attributable sources.

New employees are briefed on the Whistle-blowing policy during their induction.

The Whistle-blowing Policy as well as whistle-blowing communications channel, have been disseminated to all staff via email and also made available on the Company's internal shared drive for staff reference.

All reported whistle-blowing incidents or concerns will be independently investigated, and remedial actions will be taken to address the whistle-blowing incidents.

SHAREHOLDER RIGHTS AND CONDUCT OF GENERAL MEETINGS

PRINCIPLE 11: *The company treats all shareholders fairly and equitably in order to enable them to exercise shareholders' rights and have the opportunity to communicate their views on matters affecting the company. The company gives shareholders a balanced and understandable assessment of its performance, position and prospects.*

Provision 11.1 – Participation of Shareholders at General Meetings

The Company welcomes the views of shareholders on matters concerning the Company and encourages shareholders' participation at shareholders' meetings. All shareholders are entitled to attend the general meetings and are given ample opportunity and time to participate effectively and vote at the meetings.

Shareholders are welcomed to communicate their views on matters relating to the Group with the Board and the Chairman of the Board Committees and the external auditors of the Company in attendance. Shareholders are informed of the rules, including voting procedures that govern the general meetings. The Company's Constitution allows a shareholder to appoint up to two (2) proxies to attend and vote on behalf of the shareholders.

Specified intermediaries, such as banks and capital markets service licence holders which provide custodial services, may appoint more than two proxies. This will enable indirect investors, including CPF investors, to be appointed as proxies to participate in shareholders' meetings. Such indirect investors, where so appointed, will have the same rights as direct investors to vote at shareholders' meetings.

Provision 11.2 – Separate Resolutions at General Meetings on Each Substantially Separate Issue

The Company does not practise bundling of resolutions at general meetings. Each distinct issue is proposed as a separate resolution and full information is provided for each item in the agenda for the meetings.

All resolutions proposed at the general meeting are conducted by way of poll voting. A scrutineer is appointed to count and validate the votes cast at the meeting. The total number of votes cast, for or against, and the respective percentages, in respect of each resolution are tallied and announced at the meeting. The detailed voting results will also be announced to SGX-ST via SGXNet on the same day after the conclusion of the meetings. Shareholders who are present in person or represented by proxies will be entitled to one vote for each share held.

Provision 11.3 – Attendance at General Meetings

All Directors, including the Chairman of the Board and the respective Chairman of the AC, NC and RC, as well as external auditors are present at general meetings to address shareholders' queries. Management is also present at general meetings to respond, if necessary, to operational questions from shareholders that may be raised.

An independent external party is appointed as scrutineer for the poll voting process. It is the role of the scrutineer to review the proxies and the poll voting system, as well as attend to the proxy verification process to ensure that the poll voting information is compiled correctly. All of the Company's resolutions are voted on via a poll.

At the general meetings, the voting results for each resolution are disclosed to shareholders. When voting for a resolution has concluded, the poll voting results including the number and percentage of votes cast (both for and against the resolution) are immediately made known to shareholders. The poll voting and proxy voting results are promptly released to the SGX-ST via SGXNet.

CORPORATE GOVERNANCE REPORT

If any shareholder is unable to attend a shareholders' meeting, he/she is allowed to appoint up to two proxies to vote on his/her behalf at the meeting through proxy forms which are sent together with the Annual Reports or Circulars (as the case may be).

As the authentication of shareholder identity information and other related security issues still remain a concern, the Company has decided, for the time being, not to implement voting in absentia by mail, email or fax.

Where there is inadvertent disclosure made to a select group, the Company will make the same disclosure publicly to all others as soon as possible.

The Company does not practise selective disclosure. Price-sensitive information is publicly released, financial results and annual reports/circulars are announced to the SGX-ST via SGXNET on a timely basis and are available on the Company's website.

The Group's stakeholders play a crucial role in our business. Intraco's vision and the success of its business is closely aligned with the interests and needs of its key stakeholders. Effective stakeholder engagement can help the Group to better understand the needs of its key stakeholders and incorporate these into its corporate strategy.

We are independent of the Group in accordance with the Accounting and Corporate Regulatory Authority ("ACRA") Code of Professional Conduct and Ethics for Public Accountants and Accounting Entities ("ACRA Code"), as applicable to audits of financial statements of public interest entities, together with the ethical requirements that are relevant to our audit of the financial statements of public interest entities in Singapore. Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current year. Key Audit Matters (Continued)

1 Allowance for expected credit loss on trade receivables

Trade receivables amounted to S\$22.7 million as at the end of the reporting year are significant to the group. The group determines the expected credit losses ("ECL") of trade receivables by making debtor-specific assessment of expected impairment loss for overdue trade receivables and using a provision matrix for remaining trade receivables based on historical credit loss experience, historical payment profile, geographical risk as well as credit risk profile of customer. These assumptions are further adjusted to incorporate forward-looking information, including relevant market data and industry growth rates applicable to its customers.

The determination of ECL involves significant judgement and estimation, and the input used represents key assumptions applied in the measuring the ECL.

Related Disclosures

Refer to Note 2.1, 9 and 25 of the accompanying financial statements.

Audit Response

Our procedures included, amongst others, the following:

- Obtained an understanding of the group's processes and controls relating to management's assessment of the recoverability of trade receivables which are past due but not impaired, including the assessment of any allowance for expected credit losses to be made;
- Reviewed management's assessment of loss allowance based on expected credit loss model in accordance with SFRS(I) 9;
- Evaluated management's basis, key assumptions and inputs used in estimating the recoverability of trade receivables, including historical collection trends, ageing analysis, historical credit loss experience, historical payment profile, geographical risk and credit risk profile of customers;
- Assessed the reasonableness of the credit loss rates applied to the respective aging brackets of the trade receivables;
- Discussed with the management on the status of long overdue trade receivables and their consideration of debtors' specific profiles and risks;
- Verified evidence of receipts from the customers subsequent to the end of the reporting year and considering available evidence which includes actual or expected significant adverse changes in business, financial or economic condition that may cause a significant increase in credit risk; and
- Assessed the adequacy and appropriateness of the related disclosures and classifications.

As part of an audit in accordance with SSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- (d) Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- (f) Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as basis for forming an opinion on the group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

NOTES TO FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2025

These notes form an integral part of and should be read in conjunction with the financial statements.

1. General corporate information

Intraco Limited (the “Company”) is incorporated in the Republic of Singapore. The address of the Company’s registered office is 82 Ubi Avenue 4, #05-02 Edward Boustead Centre, Singapore 408832. The Company is listed on the Singapore Exchange Securities Trading Limited (“SGX-ST”).

The financial statements of the Group as at and for the year ended 31 December 2025 comprise the Company and its subsidiaries (together referred to as the “Group” and individually as “Group entities”).

The principal activity of the Company is that of investment holding. The Group is primarily involved in the trading and distribution of plastics resin, provision of trade finance and supply chain solutions, provision of mobile radio infrastructure management services, provision of corporate advisory services related to digital assets and investments. (Note 5).

2. Material accounting policy information

2.1 Basis of preparation

The financial statements have been prepared in accordance with Singapore Financial Reporting Standards (International) (“SFRS(I)”) under the historical cost convention, except as disclosed in the accounting policies below.

The financial statements are presented in Singapore dollar which is the functional currency and presentation currency of the Company. The financial statements are expressed in Singapore dollar, and all values are rounded to the nearest thousand (S\$’000) unless otherwise indicated.

The preparation of financial statements in compliance with SFRS(I)s requires management to make judgements, estimates and assumptions that affect the Group’s application of accounting policies and reported amounts of assets, liabilities, revenue and expenses. Although these estimates are based on management’s best knowledge of current events and actions, actual results may differ from those estimates. Estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are summarised below and detailed disclosures are included in the respective notes to the financial statements.

Significant accounting estimates and assumptions used:

- Assessment of the recoverability of trade receivables (Note 9 and Note 25)

NOTES TO FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2025

2. Material accounting policy information (Continued)

2.1 Basis of preparation (Continued)

Measurement of fair values

The Group has an established control framework with respect to the measurement of fair values. The management has overall responsibility for all significant fair value measurements, including Level 3 fair values, where applicable.

The Group regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values to support the conclusion that these valuations meet the requirements of SFRS(I), including the level in the fair value hierarchy, the resulting fair value estimate should be classified at level 2.

Significant valuation issues are reported to the Group's Audit Committee.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement (with Level 3 being the lowest).

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in Note 25 – Financial Instruments.

Changes in accounting policies

New standards, amendments and interpretations effective from 1 January 2025

On 1 January 2025, the Group adopted the new or amended SFRS(I) and interpretations to SFRS(I) that are mandatory for application for the financial year. The adoption of these standards did not result in significant changes to the Group's accounting policies and had no material impact to the Group's financial statements.

NOTES TO FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2025

2. Material accounting policy information (Continued)

2.1 Basis of preparation (Continued)

New standards, amendments and interpretations issued but not yet effective

There are a number of standards, amendments to standards, and interpretations, that are effective in future accounting periods and the Group has not decided to early adopt. The Group does not expect any of these standards upon adoption will have a material impact to the Group, except as disclosed below:

SFRS(I) 18 Presentation and Disclosure in Financial Statements

The SFRS(I) 18 replaces SFRS(I) 1-1 Presentation of Financial Statements and provides guidance on presentation and disclosure in financial statements, focus on the statement of profit or loss.

SFRS(I) 18 introduces:

- New structure on statement of profit or loss with defined subtotals;
- Disclosure related to management-defined performance measures (MPMs), which are measures of financial performance based on a total or sub-total required by accounting standards with adjustments made (e.g. 'adjusted profit or loss'). A reconciliation of MPMs to the nearest total or subtotal calculated in accordance with accounting standards; and
- Enhanced principles on aggregation and disaggregation of financial information which apply to the primary financial statements and notes in general.

SFRS(I) 18 will take effect on 1 January 2027 and management anticipates that the new requirements will change the current presentation and disclosure in the financial statements. An impact assessment regarding the adoption of SFRS(I) 18 is still underway and has not yet been completed.

2.2 Basis of consolidation

(i) Business combinations

The Group accounts for business combinations using the acquisition method when the acquired set of activities and assets meets the definition of a business and control is transferred to the Group (Note 2.2(ii)). In determining whether a particular set of activities and assets is a business, the Group assesses whether the set of assets and activities acquired includes, at a minimum, an input and substantive process and whether the acquired set has the ability to produce outputs.

The Group has an option to apply a 'concentration test' that permits a simplified assessment of whether an acquired set of activities and assets is not a business. The optional concentration test is met if substantially all of the fair value of the gross assets acquired is concentrated in a single identifiable asset or group of similar identifiable assets.

NOTES TO FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2025

2. Material accounting policy information (Continued)

2.2 Basis of consolidation (Continued)

(i) Business combinations (Continued)

The Group measures goodwill at the date of acquisition as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interest (“NCI”) in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the pre-existing equity interest in the acquiree; and
- over the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed. Any goodwill that arises is tested annually for impairment.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Any contingent consideration payable is recognised at fair value at the date of acquisition and included in the consideration transferred. If the contingent consideration that meets the definition of a financial instrument is classified as equity, it is not remeasured and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes to the fair value of the contingent consideration are recognised in profit or loss.

When share-based payment awards (replacement awards) are exchanged for awards held by the acquiree’s employees (acquiree’s awards) and relate to past services, then all or a portion of the amount of the acquirer’s replacement awards is included in measuring the consideration transferred in the business combination. This determination is based on the market-based value of the replacement awards compared with the market-based value of the acquiree’s awards and the extent to which the replacement awards relate to past and/or future service.

NCI that are present ownership interests and entitle their holders to a proportionate share of the acquiree’s net assets in the event of liquidation are measured either at fair value or at the NCI’s proportionate share of the recognised amounts of the acquiree’s identifiable net assets, at the date of acquisition. The measurement basis taken is elected on a transaction-by-transaction basis. All other NCI are measured at acquisition-date fair value, unless another measurement basis is required by SFRS(I)s.

Costs related to the acquisition, other than those associated with the issue of debt or equity investments, that the Group incurs in connection with a business combination are expensed as incurred.

Changes in the Group’s interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners in their capacity as owners and therefore no adjustments are made to goodwill and no gain or loss is recognised in profit or loss. Adjustments to NCI arising from transactions that do not involve the loss of control are based on a proportionate amount of the net assets of the subsidiary.

NOTES TO FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2025

2. Material accounting policy information (Continued)

2.2 Basis of consolidation (Continued)

(ii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The accounting policies of subsidiaries have been changed when necessary to align them with the policies adopted by the Group. Losses applicable to the NCI in a subsidiary are allocated to the NCI even if doing so causes the NCI to have a deficit balance.

(iii) Loss of control

Upon the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any NCI and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost.

(iv) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(v) Subsidiaries in the separate financial statements

The subsidiaries are classified as equity investments at fair value through other comprehensive income ("FVOCI"). Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

(vi) Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of the asset's previous carrying amount and fair value less costs to sell except for, *inter alia*, investment properties measured at fair value. The assets are not depreciated or amortised while classified as held for sale. Any impairment loss on initial classification and subsequent measurement is recognised as an expense. Any subsequent increase in fair value less costs to sell (not exceeding the accumulated impairment loss that has been previously recognised) is recognised in profit or loss.

2.3 Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the Executive Chairman and Director (the chief operating decision maker) to make decisions about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available.

Segment results that are reported to the Executive Chairman and Director include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Unallocated items comprise mainly corporate assets (primarily the Company's headquarters), head office expenses, and tax assets and liabilities.

Segment capital expenditure is the total cost incurred during the year to acquire property, plant and equipment, and intangible assets other than goodwill.

3. Property, plant and equipment

Determination of lease terms

The Group leases office premises from third parties with only fixed payments over the lease terms. Included in the lease arrangements, there are extension options held and exercisable by the Group. In determining the lease terms, management considers the likelihood of exercising the extension option. Management considers all facts and circumstances that create an economic incentive to extend the lease. The assessment on lease terms is reviewed at the end of each reporting period if there is a significant change in the Group's intentions, business plan or other circumstances unforeseen since it was first estimated.

The Group has determined the discount rate by reference to the respective lessee's incremental borrowing rate when the rate inherent in the lease is not readily determinable. The Group obtains the relevant market interest rate after considering the applicable geographical location where the lessee operates as well as the term of the lease. Management considers industry data available as well as any security available in order to adjust the market interest rate obtained from similar economic environment, term and value of the lease.

The Group also leases certain leased premises on a short-term basis (i.e. less than 12 months). The election of short-term leases is made on lease-by-lease basis. Total cash outflow including short term lease from lease liabilities amounted to S\$263,000 (2024: S\$331,000) during the current financial year.

24. Operating segments

The Group has the following strategic business units which are its reportable segments, as described below. The strategic business units offer different products and services and are managed separately because they require different technology and marketing strategies. For each of the strategic business units, the Executive Chairman and Director (the chief operating decision maker) reviews internal management reports on a monthly basis. The following summary describes the operations in each of the Group's reportable segments:

- *Trading and Distribution* Trading and distribution in industrial materials which include plastics resin as well as provision of trade finance and supply chain solutions.
- *Mobile Radio Infrastructure Management and Corporate Advisory Services* Provision of mobile radio infrastructure management services and provision of corporate advisory services related to digital assets.
- *Corporate/others* Consists of corporate overheads, investments and others which do not meet any of its quantitative thresholds for determining a reporting segment.

The Company's assets and liabilities are not allocated to the reporting segments as they are not included in the measure of the segments' profit that is used by the chief operating decision-maker for assessment of segment performance.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit after tax, as included in the internal management reports that are reviewed by the Executive Chairman and Director. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing is determined on an arm's length basis.

Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board ensures that management maintains a sound system of internal controls and effective risk management policies to safeguard shareholders' interests and the Group's assets and in this regard, is associated by the audit committee which conducts the reviews of the adequacy and effectiveness of the Group's internal controls and risk management systems.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and *ad hoc* reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers and investment securities.

The carrying amounts of financial assets in the statements of financial position represent the Group and the Company's maximum exposure to credit risk, before taking into account any collateral. The Group and the Company do not hold any collateral in respect of their financial assets.

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the demographics of the Group's customer base, including the default risk associated with the industry and country in which customers operate, as these factors may have an influence on credit risk. Details of concentration of revenue are included in Note 24.

Management has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, if they are available, financial statements, credit agency information, industry information, and in some cases bank references. These limits are reviewed on an ongoing basis. Customers failing to meet the Group's benchmark creditworthiness may transact with the Group only on a prepayment/cash basis.

The Group limits its exposure to credit risk from trade receivables by establishing maximum payment periods of one and three months for individual and corporate customers respectively.

The Group does not require collateral in respect of trade receivables.

Trade and other receivables

The Group's primary exposure to credit risk arises through its trade and other receivables*. Concentration of credit risk relating to trade and other receivables* is limited due to the Group's many varied customers. These customers are regionally dispersed.

The exposure to credit risk for trade and other receivables* at the reporting date (by operating segments) was:

	Group		Company	
	2025 S\$'000	2024 S\$'000	2025 S\$'000	2024 S\$'000

	35,464	30,628	19,481	17,782

The Group's most significant customer, a customer of the Group's trading and distribution segment, accounts for S\$2,250,000 (2024: S\$2,675,000) of the trade and other receivables* as at 31 December 2025. There is no concentration of customer risk at the Company level. The Company held receivables from its subsidiaries amounting to S\$7,292,000 as at 31 December 2025 (2024: S\$15,631,000). The management has taken into account information that it has available internally about the liquidity and performance ratio of these subsidiaries. Amount due from subsidiaries has been measured based on 12-month expected credit loss model and subject to immaterial credit loss.

* Exclude goods and service tax receivables, advances to suppliers and prepayments.

Credit risk (Continued)

Trade and other receivables (Continued)

The credit quality of trade and other receivables* is assessed based on credit policies established by the management. The Group monitors customer credit risk by grouping trade and other receivables based on their characteristics. Trade and other receivables* with high credit risk will be identified and monitored by the respective strategic business units. The Group assesses that no allowance for impairment loss on trade and other receivables* is required, except for the amounts for which allowance were made for trade receivables due to slow recovery and amounts due from shareholder (Note 9). The movement in impairment loss in respect of trade and other receivables during the year was as follows:

	Group		Company	
	2025 S\$'000	2024 S\$'000	2025 S\$'000	2024 S\$'000
Lifetime ECL

At 31 December	251	259	245	259

* Exclude advances to goods and service tax receivables, suppliers and prepayments.

Based on the Group's monitoring of credit risk, the Group believes that apart from the above, no additional allowance is necessary.

Cash and bank balances

The Group and the Company held cash and bank balances of S\$65,488,000 and S\$16,464,000 (2024: S\$60,226,000 and S\$13,014,000) respectively as at 31 December 2025 and these amounts represent their maximum credit exposures on these assets. The bank balances are held with banks and financial institution counterparties, which are rated Ba3 to Aa1, based on Moody's ratings.

Impairment on cash at bank has been measured on the 12-month expected loss basis and reflects the short maturities of the exposures. The Group considers that its cash at banks have low credit risk based on the external credit ratings of the counterparties. The amount of the allowance on cash at bank was negligible.

Liquidity risk

Risk management policy

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows. Typically, the Group ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot be reasonably predicted, such as natural disasters.

The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements:

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return on risk.

Interest rate risk

The Group's exposure to changes in interest rates relates primarily to the Group's interest-earning financial assets and interest-bearing financial liabilities. Interest rates are managed by the Group on an ongoing basis with the primary objective of limiting the extent to which net interest expense could be affected by an adverse movement in interest rates.

The Group adopts a policy of constantly monitoring movements in interest rates. Presently the Group does not use derivative financial instruments to hedge its interest rate risk.

Market risk (Continued)

Interest rate risk (Continued)

At the reporting date, the interest rate profile of the interest-bearing financial instruments was as follows:

	Group		Company	
	Nominal amount		Nominal amount	
	2025	2024	2025	2024
	S\$'000	S\$'000	S\$'000	S\$'000
Fixed rate instruments				
Financial assets	31,502	41,735	28,910	24,363
Financial liabilities	(32,786)	(37,023)	(28,530)	(19,613)
	(1,284)	4,712	380	4,750
Variable rate instruments				
Financial assets	26,459	446	-	-
Financial liabilities	(23,247)	-	-	-
	3,212	446	-	-

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Fair value sensitivity analysis for variable rate instruments

An increase of 1% (2024: 1%) in the interest rate at 31 December would have increased profit before tax by S\$32,000 (2024: S\$4,000). A decrease of 1% (2024: 1%) in the interest rate at 31 December would have had the equal but opposite effect to the amounts shown above, on the basis that all variables remain constant.

Other market price risk

The Group's and the Company's financial assets measured at FVTPL and FVOCI are classified within Level 3 of the fair value hierarchy. As these instruments are not traded in active markets, their fair values are determined using valuation techniques, including the net asset value method and income approach, as disclosed in Note 25(i). Accordingly, a sensitivity analysis based on a fixed percentage change in market prices is not considered meaningful or representative of the underlying valuation uncertainties.

Currency risk

Risk management policy

The Group is exposed to foreign currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of Group entities. The currencies giving rise to this risk are primarily the US dollar.

There is no formal hedging policy with respect to foreign exchange exposure. Exposure to currency risk is monitored on an ongoing basis and the Group endeavours to keep the net exposure at an acceptable level.

Exposure to currency risk

The Group and Company's exposures to foreign currency risk based on notional amounts were as follows:

Sensitivity analysis

A weakening of 10% (2024: 10%) in the relevant foreign currency against the functional currency of each of the Group entities at 31 December would have increased profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the end of the financial year. The analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2024.

	Profit or loss			
	Group		Company	
	2025 S\$'000	2024 S\$'000	2025 S\$'000	2024 S\$'000
US dollar	(312)	(41)	(312)	(34)
Singapore dollar	5	(47)	-	-
Chinese renminbi	(22)	-	-	-

A 10% (2024: 10%) strengthening of the above currency against the functional currency of each of the Group entities at 31 December would have had the equal but opposite effect to the amounts shown above, on the basis that all other variables remain constant.

Capital management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Capital consists of share capital. The Board of Directors monitors the return on capital, which the Group defines as net operating income divided by total shareholders' equity.

The Board seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

There were no changes in the Group's approach to capital management during the year.

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

Accounting classifications and fair values

Type	Level of fair value hierarchy	Valuation technique	Significant unobservable inputs	Inter-relationship between key unobservable inputs and fair value measurement
Group				
Other investments – Financial assets at FVOCI	3	Adjusted net asset value	Net asset value	The estimated fair value would increase (decrease) if the net asset value was higher (lower).
Other investments – Financial assets at FVTPL	3	Adjusted net asset value	Net asset value	The estimated fair value would increase (decrease) if the net asset value was higher (lower).
Financial liabilities at FVTPL	3	Market approach	Net asset value	The estimated fair value would increase (decrease) if the net asset value was higher (lower).
Company				
Equity investments	3	Income approach - Discounted cash flows ("DCF"): The valuation model considers the present value of the expected future payments, discounted using a risk adjusted discounted rate.	Discounted cash flows: Risk-adjusted discount rate at 6.1% - 7.2% (2024: 7.4%)	The estimated fair value would increase (decrease) if the risk –adjusted discount rate was lower (higher).
	3	Adjusted net asset value: For certain subsidiaries whose assets and liabilities approximate their fair values, the fair value of the investment is determined based on the adjusted net asset value of the investee.	Net asset value	The estimated fair value would increase (decrease) if the net asset value was higher (lower).
Other investments – Financial assets at FVTPL	2	Market approach	N/A	Not applicable as the fair value is based on observable market prices.

27. Events occurring after balance sheet date

- (i) On 2 January 2026, the Company exercised its exchange option on the maturity date to exchange the exchangeable loan into 750,200 existing shares of iChange Pte. Ltd. (“iChange”) which were previously held by iApps Pte Ltd, representing 60.1% of the issued and paid-up share capital of iChange. Pursuant to the exchange option, iChange became a 80% subsidiary of the Company. Please see the announcements dated 19 September 2025 and 24 October 2025 for more information.
- (ii) In respect of the current financial year, the directors have proposed that a final dividend of 0.75 cent (2024: 0.50 cents) per share with a total of approximately S\$807,000 (2024: S\$542,000) to be paid to shareholders subject to approval by shareholders at the next annual general meeting to be held on 23 April 2026. This proposed final tax-exempt dividend has not been recognised as at year end and will be submitting for shareholders’ approval at the forthcoming Annual General Meeting of the Company in 2026.
- (iii) On 9 March 2026 and 13 March 2026, the subsidiary, Intraco Trading Pte Ltd (“ITPL”), received a notification from its two major suppliers declaring *force majeure* events arising from the security situation in and around the Straits of Hormuz, which has significantly disrupted olefins supply and forced several of the suppliers’ production lines to cease operations for an extended period. The affected suppliers accounted for approximately 33% of Group’s total purchases for the financial year ended 31 December 2025.

Following the above, ITPL has taken steps to mitigate the impact by sourcing alternative supplies. As at 24 March 2026, ITPL has successfully secured approximately US\$10 million worth of plastic resin products from other suppliers to fulfil customer demand for March and April 2026. The Group will continue to explore additional alternative sources of supply.

As at the date of these financial statements, while the Group has partially mitigated the immediate impact through alternative sourcing, the duration and extent of the disruption remain uncertain and the financial impact on the Group cannot be reasonably estimated. The Group will continue to monitor the situation and assess any potential impact on its operations.

28. Authorisation of financial statements

The consolidated financial statements of the Group and the statement of financial position of the Company for the financial year ended 31 December 2025 were authorised for issue by the Board of Directors on 6 April 2026.

Notes to the Proxy Form:

1. A shareholder of Intraco Limited (“**Shareholder**”) who is not a relevant intermediary and entitled to attend and vote at the Meeting is entitled to appoint one or two proxies to attend and vote in his/her/their/its stead. A proxy need not be a Shareholder. Where a Shareholder appoints more than one proxy, the appointments shall be invalid unless he/she/they/it specifies the proportion of his/her/their/its shareholding (expressed as a percentage of the whole) to be represented by each proxy.
2. A Shareholder who is a relevant intermediary entitled to attend and vote at the Meeting is entitled to appoint more than two proxies to attend and vote instead of the Shareholder, but each proxy must be appointed to exercise the rights attached to a different Share or Shares held by such Shareholder. Where such Shareholder appoints more than one proxy, the appointments shall be invalid unless the Shareholder specifies the number of Shares in relation to which each proxy has been appointed in the Proxy Form (defined below).

“**Relevant intermediary**” means:

- (a) a banking corporation licensed under the Banking Act 1970 of Singapore, or a wholly-owned subsidiary of such a banking corporation, whose business includes the provision of nominee services and who holds shares in that capacity;
 - (b) a person holding a capital markets services licence to provide custodial services for securities under the Securities and Futures Act 2001 of Singapore, and who holds shares in that capacity; or
 - (c) the Central Provident Fund Board (“**CPF Board**”) established by the Central Provident Fund Act 1953 of Singapore, in respect of shares purchased under the subsidiary legislation made under that Act providing for the making of investments from the contributions and interest standing to the credit of members of the Central Provident Fund, if the CPF Board holds those shares in the capacity of an intermediary pursuant to or in accordance with that subsidiary legislation.
3. Shareholders may also appoint Chairman of the Meeting to vote in in his/her/their/its stead. The Chairman of the Meeting, as a proxy, need not be a Shareholder.
 4. A Shareholder should insert the total number of Shares held in the Proxy Form. If the Shareholder has Shares entered against his/her/their/its name in the Depository Register maintained by The Central Depository (Pte) Limited (“**CDP**”), he/she/they/it should insert that number of Shares. If the Shareholder has Shares registered in his/her/their/its name in the Register of Members, he/she/they/it should insert that number of Shares. If the Shareholder has Shares entered against his/her/their/its name in the said Depository Register and Shares registered in his/her/their/its name in the Register of Members, he/she/they/it should insert the aggregate number of Shares entered against his/her/their/its name in the Depository Register and registered in his/her/their/its name in the Register of Members. If no number is inserted, the Proxy Form will be deemed to relate to all the Shares held by the Shareholder.
 5. The instrument appointing proxy(ies) (the “**Proxy Form**”) must be deposited at the Share Registrar’s Office at **Boardroom Corporate & Advisory Services Pte. Ltd. at 1 Harbourfront Avenue, #14-07 Keppel Bay Tower, Singapore 098632** or sent by email to **AGM_Intraco@intraco.com** not less than 72 hours before the time appointed for holding the Meeting.

Shareholders are strongly encouraged to submit completed Proxy Forms via email.

6. The Proxy Form must be executed under the hand of the appointor or of his or her attorney duly authorised in writing. Where the Proxy Form is executed by a corporation, it must be executed either under its common seal or under the hand of an officer or attorney duly authorised. Where the Proxy Form is executed by an attorney on behalf of the appointor, the letter or power of attorney or a notarially certified copy thereof must be lodged with the Proxy Form, failing which the Proxy Form may be treated as invalid.
7. Completion and return of this instrument appointing a proxy or proxies shall not preclude a Shareholder from attending and voting at the Meeting. Any appointment of a proxy or proxies shall be deemed to be revoked if a Shareholder attends the Meeting, and in such event, the Company reserves the right to refuse to admit any person or persons appointed under the instrument of proxy to the Meeting.
8. The Company shall have the right to reject any Proxy Form which is incomplete, improperly completed or illegible or where the true intentions of the appointor are not ascertainable from the instructions of the appointor specified on the Proxy Form. In addition, in the case of shares entered in the Depository Register, the Company (a) may reject any Proxy Form if the Shareholder, being the appointor, is not shown to have shares entered against his or her name in the Depository Register as at 72 hours before the time appointed for holding the Meeting, as certified by CDP to the Company; and (b) shall be entitled and bound to accept as accurate the number of shares entered against the name of that Shareholder as shown in the Depository Register as at a time not earlier than 72 hours prior to the time of the Meeting, supplied by CDP to the Company and to accept as the maximum number of votes which in aggregate that Shareholder and his proxy/ies (if any) are able to cast on poll a number which is the number of shares entered against the name of that Shareholder as shown in the Depository Register, whether that number is greater or smaller than that specified by the Shareholder or in the Proxy Form.
9. All Shareholders will be bound by the outcome of the Meeting regardless of whether they have attended or voted at the Meeting.
10. Personal data privacy: By submitting an instrument appointing proxy(ies) to vote at the Meeting and/or any adjournment thereof, all shareholders accept and agree to the personal data privacy terms set out in the Notice of Annual General Meeting dated 8 April 2026.
