8 **Review of Performance**

The Group's turnover in first half 2010 was S\$89.1 million as compared to S\$102.9 million for the same period in 2009. The decrease was mainly attributed to underperformance of the Semiconductors segment, the decrease in projects secured by the Projects segment in 2010 and a one-off billing in 2009 of S\$5.5 million for services rendered by a subsidiary.

The reduction in other operating expense of S\$5.8 million in first half 2010 as compared to the same period in 2009 was due to high provision for doubtful debts allowance of S\$1.6 million and write down of inventory to NRV of S\$4.1 million in 2009.

Profit after tax and minority interest for first half 2010 was S\$0.1 million as compared to S\$0.9 million for the same period in 2009. This was due mainly to higher losses suffered in the Semiconductors segment.

Projects

Turnover in the Projects segment was S\$8.8 million in first half 2010 as compared to S\$19.4 million for the same period in 2009 as fewer projects were secured in 2010.

Segment profit for first half 2010 was S\$0.3 million as compared to S\$1.0 million in the same period of 2009. This was in line with the lower turnover.

Semiconductors

Turnover in the Semiconductors segment for first half 2010 was S\$25.8 million as compared to S\$39.8 million for the same period in 2009.

Segment loss for first half 2010 was S\$1.2 million as compared to loss of S\$0.2 million in the same period in 2009. This was mainly due to lower turnover and shortfall in revenue of higher margin businesses.

Trading and others

Turnover in the Trading segment was S\$54.5 million for the first half of 2010 as compared to S\$43.6 million in the same period of 2009. The increase was due to higher plastics resin prices and increase in volume due to expanding sources of supply.

The Segment profit was S\$0.9 million for first half 2010 as compared to S\$0.4 million in the same period in 2009. This was attributed to higher turnover.

Not applicable

- 10 **A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

Although there is a general improvement in the economic outlook, the Group is likely to face challenges in the industries in which the Group is operating in. Hence the Group remains cautious on the business outlook for the next reporting period and the next 12 months.

(a) Current Financial Period Reported On
